

FREEZES AT HER BREAST. NIGHT DIE IN BLIZZARD. TEXANS FREEZE TO DEATH. SHE WILL BECOME BRIDE OF A GRAND DUKE. ASSASSINS CONFESS.

Infant Perishes of Cold in Mother's Arms in New York City. (BY DIRECT WIRE TO THE TIMES.) NEW YORK, Jan. 16.—[Exclusive Dispatch.] When Surgeon Markel of the Gouverneur Hospital went to two bitterly cold rooms occupied by Mr. and Mrs. Joan Coult, at No. 57 Broome street, today to take the young woman to the hospital, he found her 2-month-old infant frozen to death on her breast. The young mother, who was crippled with rheumatism and half starved, refused to believe that her child was dead. The baby had frozen in the mother's arms. The father for six months has been unable to find employment.

Texans Freeze To Death. Gulf States and North and South Atlantic Still in the Frozen Grip. Five Points in United States Colder Than Any Canadian Place of Record. Railroad Men and Others Predict Disastrous Floods When Snow Melts. (BY DIRECT WIRE TO THE TIMES.) STATISTICS OF THE WEATHER. Coldest spot in the United States, Charles City, Iowa, 16 degrees below zero. Coldest spot in Canada, Qu'Appelle, 6 degrees below zero. Warmest spot in United States, Los Angeles, 52 degrees above zero. Deaths by freezing—Cleveland, 1; Marquette, Mich., 1; Hayward, Wis., 1; Havre, Mont., 1; Texas, 8.

Princess Victoria Louise, of Germany, only daughter of Emperor and Empress of Germany, whose betrothal was informally announced yesterday. Cupid Crowned. ROYAL PRINCESS IS TO BE GRAND DUKE'S BRIDE. Only Daughter of Emperor and Empress of Germany Betrothed to Frederick of Mecklenburg-Strelitz—She Can Sew, Cook and Run a Typewriter—Formal Announcement Expected Soon. (BY DIRECT WIRE TO THE TIMES.) BERLIN, Jan. 16.—[Exclusive Dispatch.] For the second time within a few months newspapers here today published the betrothal of Princess Victoria Louise, only daughter of the Emperor of Germany, according to the announcement this afternoon, it is expected formal announcement of the betrothal of the Princess to Grand Duke Adolf Frederick of Mecklenburg-Strelitz will be made upon the occasion of the Emperor's birthday, January 27.

Attack on Premier Part of the Organized Plot of Radical Revolutionists. Bomb-throwers Lined Route. Abdication of Emperor Now Imperative. Imperial Princes Forced to Agree to Edict Dethroning Baby Ruler. (BY DIRECT WIRE TO THE TIMES.) PEKING, Jan. 16.—[Exclusive Dispatch.] Huang Tui-feng and three of his accomplices, who were captured immediately after they threw the bombs at Yuan Shi Kai in an attempt to assassinate him, today have confessed. Their statements reveal the fact that the attempt on the Premier's life was the result of an organized plot. At a secret cabinet council it was decided that the abdication of Pu-Yi, the infant Emperor of China, cannot be longer postponed. The abdication edict was prepared and probably will be promulgated at once.

CITY WINS ON EVERY POINT.

Interior Department Decides Owens Valley Cases.

Overrules Decision of Land Office Commissioner.

Unequivocal Victory Gained by Los Angeles.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Jan. 16.—[Exclusive Dispatch.] The decision of the Interior Department in the protest by settlers in Owens Valley against granting Los Angeles the right to purchase lands needed for the city's water system is most sweeping. It was written by Assistant Secretary Adams and received the approval of Secretary Fisher. The commissioner is overruled on every point, showing that the city received certain rights by special act of Congress. The decision goes into the merits of each of the three applications and shows that eminent engineers have supported the contention of the city in every case.

Great weight, said the Secretary, should be given to such expert opinions. The contention of the opposition that the planning of a water system adequate to supply 2,000,000 people was in excess of what could be reasonably required, was held not to be well taken, and it was remarked that the special act of Congress gave Los Angeles the right to sell water to other cities and communities and to develop power.

Much was made by the protestants of the possibility that private interests would be prevented from developing power along the river bed, along the city or sixty-mile stretch, where the city wished to buy the lands forming the river banks to guard against pollution of the waters.

In short, the decision was a full, complete and unequivocal victory for the city, which is supported on every point.

Congressman Smith has advised his constituents at Bishop, who are thus overruled, to file at once an appeal and a request for rehearing.

INAGURATION DATE CHANGED.

Judiciary Committee Indorses Proposal to Have President Take Office in April.

(BY A. P. NIGHT WIRE TO THE TIMES.)

WASHINGTON, Jan. 16.—[Exclusive Dispatch.] The House Judiciary Committee ordered favorably reported today the Henry resolution changing the date of the Presidential inauguration from March 4 to the last Thursday in April and the terms of Representatives in Congress to begin the second Tuesday in January instead of on March 4. These changes would be effective April 1, 1917, and January, 1918, respectively.

The resolution would provide for extension of the term of the President and Vice-President in 1917 to the last Thursday of April, 1917.

Congress would convene annually on the second Tuesday in January. This would leave the biennial elections in November except in Oregon, in Idaho, and Maine and Vermont in September.

Several Democratic members reserved the right to amend the resolution to provide for a change in the date of the inauguration.

The bill also would give Congress constitutional power to legislate as to succession when the President is unable to discharge his duties on account of death or inability of the President-elect and Vice-President.

SENATOR LORIMER DEALS IN WORKING PHILOSOPHY.

(BY A. P. NIGHT WIRE TO THE TIMES.)

WASHINGTON, Jan. 16.—[Exclusive Dispatch.] The cross-examination of Senator Lorimer of Illinois before the Senate investigating committee failed to develop any sensational story. Apparently it did not rattle his temper.

Most of the cross-examination was directed to Mr. Lorimer's recital of political conditions in Illinois when the Legislature was electing a Senator in 1909, the personal association of Democrats with Republicans, and the subsequent reasons why he believed the Democrats voted for him.

When Senator Lorimer got to talking politics he coined a few apothegms.

"The direct primary in every Northern State destroys the cohesive-

dent-elect between the counting of the electoral vote and the inauguration. "There is a complete hiatus here at present," said Mr. Henry, "and should these officials die or become totally disabled between those dates there is no authority for filling the vacancies."

WILL TAKE FEW LESSONS.

PLAN TO IMPROVE EGYPT.

WASHINGTON, Jan. 16.—[The United States Department of Agriculture, through Lord Kitchener, Great Britain's upholder of India, who is devoting his attention to Egypt, has been asked when it would be the best time for a representative of the Sudanese government to visit this country to study dry farming and cotton cultivation. Lord Kitchener hopes to improve these branches of agriculture in Egypt. A reply has been made that the best time to begin such a trip of inspection would be in May, and that the department here would be glad to plan the itinerary and render any other assistance in its power.

WASHINGTON BRIEFS.

Harlan Left Small Estate.

WASHINGTON, Jan. 16.—[By A. P. Night Wire.] A revised bill to extend legislative power to Alaska, subject to Congressional approval, was introduced today by Delegate Tuckerman of Alaska. The bill would locate the capital of Alaska at Juneau and create a council of eight members and a House of Representatives of sixteen members, all to be elected.

Examinations Ordered.

WASHINGTON, Jan. 16.—[Exclusive Dispatch.] Civil service examinations for the departmental service in Washington will be held in California, the coming spring as follows: Los Angeles, January 25, March 15, 16; April 10; Fresno, January 22, March 15, April 10; San Bernardino, January 23, March 15, April 10; San Diego, January 23, March 15, April 10; San Luis Obispo, January 23, March 15, April 10.

Re-survey in San Joaquin Approved.

WASHINGTON, Jan. 16.—[Exclusive Dispatch.] Congressmen Needham appeared before the subcommittee of the Rivers and Harbors Committee today to ask that it approve his resolution calling for a re-survey of the diverting canal on the San Joaquin. The committee approved his resolution.

Cash To Fight Fruit Fly.

WASHINGTON, Jan. 16.—[Exclusive Dispatch.] Dr. Howard, Chief of the Bureau of Entomology, said today the Department of Agriculture would recommend an appropriation of \$50,000 to fight the Mediterranean fruit fly in Hawaii.

ASSAULT WITH BOP KNIFE.

Prisoner in Portland Jail Opens Wicked Attack on Guards in Attempt to Escape.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND (Or.) Jan. 16.—[Exclusive Dispatch.] Wielding a yankee needle, filed to a sharp point by rubbing it against the iron bars of his cell, Harry Johnson, alias Frank Redfern, yeg, ninety-day man, and wanted in Salem for the theft of valuable silks, made a desperate effort to escape at the City Jail this morning, stabbing Detective Captain Baty, Detective Royle and Pat Maloney and Francis Barker, a prisoner. The attack on the men was serious, and the prisoner was injured seriously, Parker suffering most severely from a stab in the abdomen. A yankee needle is about eight inches long, used for cooking or preparing food for smoking.

Taking advantage of an opportunity to escape when the doors of the jail were opened for the night's catch of prisoners to escape and he inspected by the detective staff, Johnson made his dash for liberty. He will be charged with assault with a deadly weapon. It is found that he is determined.

SENATOR LORIMER DEALS IN WORKING PHILOSOPHY.

NO CLAMOR TO FORCE BATTLE.

Mine Workers Not Disposed to Proceed Hastily.

Division of Sentiment Over Question of Increase.

More Coal Miners Unorganized Than in Unions.

(BY A. P. NIGHT WIRE TO THE TIMES.)

INDIANAPOLIS, Jan. 16.—Division of opinion as to the policy to be pursued by the bituminous and anthracite coal miners' unions of the country in attempting to enforce a demand for higher wages appeared among the leaders of the United Mine Workers of America when its annual convention opened in this city today.

The question that will be brought before the convention is whether the individual districts of the miners' union shall sign tonnage contracts with mine owners as they can be negotiated, or whether the miners as a national organization shall refuse to sign any contracts until the operators of the mines have agreed to the miners' terms.

Thomas L. Lewis of Bridgeport, O., former president of the miners, declared he would press a resolution that no district should sign a wage contract until the operators of all the districts are willing to sign.

President White said he would present his plan to the Scale Committee and would not announce it beforehand.

He advocated a stand for higher wages in his annual report delivered today.

While he declined to commit himself in the matter, Vice-President Hayes said opposition to the policy of a national strike was largely from officials of districts bordering on unorganized coal fields.

"It is to be remembered that while the United Mine Workers have membership of nearly 300,000, there are about 650,000 coal miners that are unorganized," said Mr. Hayes.

The Scale Committee will go into session tomorrow, and is expected to return a report before January 25.

LONDON MUST BUY SEATS.

Oscar Hammerstein Threatens to Close His New Openhouse Unless Society Gives Up Money.

(BY DIRECT WIRE TO THE TIMES.)

LONDON, Jan. 16.—[Exclusive Dispatch.] Oscar Hammerstein announced today that if there were no subscriptions for the opera house would be no more.

"Some said they did not like my music," continued Oscar. "Others said they did not like my religion. Some of the money I have shown my samples, and now it is up to the upper classes to come and see my samples, or I shall irrevocably close the house."

In regard to his plans, Hammerstein said: "I invested \$1,750,000 in this enterprise. If the worst comes to the worst I shall take Orville Harold, the tenor; Peltier, the coloratura soprano, and others to New York and organize a road company."

REVEALS ART IN CUSTODY.

FARGO (N. D.) Jan. 16.—A mah giving the name of Clarence B. Boyd and claiming to be a brother of a former Mayor of Seattle today satisfied a fine of \$5 in Police Court here by drawing a charcoal sketch of the Golden Gate at San Francisco.

"Quilty," said Boyd in answer to the charge of intoxication preferred by the officers. "I've been this way for years, and I've never been in jail."

It doesn't get you anything in the end, I have been around some, but I haven't been in jail yet. Judge, I am something of an artist, though, and I have a sketch of the Golden Gate at San Francisco. I have a sketch of the Golden Gate at San Francisco. I have a sketch of the Golden Gate at San Francisco.

GRAVEYARD FENCE STOLEN.

SANTA FE, N. M., Jan. 16.—[By A. P. Night Wire.] Albert Swett was arrested today charged with having stolen the iron fence which surrounded the burial place of J. S. O'Brien, a bonanza king of early days and an associate of John W. Garrett, in Calvary cemetery. The fence, which was valued at \$1000, was disposed of in a yard in the city. The defendant declares that it is only the mutual love for horses that forms the basis of his friendship with Hubbard. The man in the case is Joseph Macklin-Hubbard, a horse man. The defendant declares that it is only the mutual love for horses that forms the basis of his friendship with Hubbard.

VIRGIL HAYES ACQUITTED.

Son of Wealthy Cattleman, Arrested at Venice, Found Not Guilty of Arizona Murder.

(BY A. P. NIGHT WIRE TO THE TIMES.)

GLOBE (Ariz.) Jan. 16.—Virgil Hayes, son of W. C. Hayes, a wealthy cattleman of this city, who yesterday was placed on trial for the alleged murder of an Indian named Rex Chiquita, in June, 1910, was acquitted tonight by a jury in the district court.

Hayes was arrested at Venice, Cal., a suburb of Los Angeles, last spring, charged with the murder of Chiquita, after the trial and conviction of Harry Jones, an Indian, charged with the same crime. Jones was later pardoned by Gov. Sloan upon the representation that additional evidence had been found in his case which clearly showed he was not in the vicinity where the crime was committed, but which the official claim, seemed to connect Hayes with the murder.

Since the trial of Jones all of the Indians who testified against him disappeared. Hayes was charged by the authorities that tribal jealousies had caused them to swear falsely against him.

Hayes's arrest followed. At his trial, however, there was absolutely no evidence introduced that could be construed as showing he had been in the vicinity of the murder, and a verdict of acquittal resulted.

BANKS TALK OF MERGING.

Equitable Trust Company Negotiates for Purchase of Trust Companies of America in New York.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NEW YORK, Jan. 16.—A proposal by the Equitable Trust Company of the purchase of the Trust Companies of America, has been submitted. The offer which is to pay \$375 each for all the shares of the latter company, will be submitted to the stockholders. It was the run of the company, has been submitted. The offer which is to pay \$375 each for all the shares of the latter company, will be submitted to the stockholders. It was the run of the company, has been submitted.

The company which played a leading part in the panic of 1907 and led to the taking over of the United States Steel corporation of the stock of the Tennessee Coal and Iron Company. The combined deposits of the two trusts would aggregate \$68,000,000.

BRIAND SHOWS MERCY.

Member of New French Cabinet Secures Release of Man Who Assaulted Him a Year Ago.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PARIS, Jan. 16.—President Fallieres today signed the order for the release of Lacour, the Royalist, who was sentenced in December, 1910, to three years imprisonment for assaulting M. Briand, when he was Premier, after the latter had been elected to the presidency of the Republic.

The request for Lacour's release was made by M. Briand, after taking up his portfolio in M. Poincaré's Cabinet.

FIVE CHILDREN BURN.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PRENTICE (Wia.) Jan. 16.—Five children, two boys and three girls, of John Deering, ranging from 1 to 13 years, lost their lives today when the Deering home, two miles from here, burned to the ground.

GIRL HEIRRESS SUEDE BY A WIFE.

(BY A. P. NIGHT WIRE TO THE TIMES.)

LOUISVILLE (Ky.) Jan. 16.—Her twenty-first birthday anniversary was made notable for Miss Nettie Bryant Ott, heiress and grand-daughter of the late Sam Bryant, noted as a race-horse owner, by a suit filed against her here today by Mrs. Josephine Furrman-Hubbard, who asks for \$50,000 for alienation of her husband's affections. The man in the case is Joseph Macklin-Hubbard, a horse man. The defendant declares that it is only the mutual love for horses that forms the basis of his friendship with Hubbard.

HE STRUCK LULU.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHICAGO, Jan. 16.—Ralph C. Hers appeared in court here yesterday, where he was fined \$100 for striking a woman. He had been charged with striking a woman, and he was fined \$100 for striking a woman.

THEATERS GET SCALP PROFIT.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHICAGO, Jan. 16.—Resolutions were adopted by the City Council last night, authorizing Mayor Harrison to revoke the license of all theaters which continued ticket "scalping." This action followed testimony brought out in the Federal court during the hearing on a lawsuit ticket broker's petition in which it was disclosed that every Chicago theater, according to his books, was in partnership with the "scalpers."

No Cascaret User Ever Has Headache.

A 10-Cent Box Will Keep Your Liver, Stomach and Bowels Clean, Pure and Fresh for Months.

Sick headache, biliousness, distended, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Salts, cathartic pills, oil and purgative waters force a passage way for a day or two—but they don't take the poisons out and have no effect upon the liver or stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the accumulated waste matter and poisons in the intestines and bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means inside cleanliness and a clear head for months. Ask any of the millions of Cascaret users if they ever have headache.

EXPERT OPINION ADVERSE.

Conference at Berlin Would Reject Application of Russia for Permission to Increase Sugar Exports.

(BY A. P. NIGHT WIRE TO THE TIMES.)

BERLIN, Jan. 16.—A conference of sugar experts met today at the office of the Imperial treasury and recommended the rejection of Russia's application to the Brussels sugar convention to be permitted to increase sugar exports to the westward from 200,000 to 500,000 tons.

The government probably will follow the experts' advice, which will mean the dissolution of the Brussels convention as Great Britain has declared her intention of withdrawing from it unless the Russian quota has been increased.

On November 31 last Sir Edward Grey, the British Foreign Secretary, announced in the House of Commons that unless the powers would permit Russia to export at least 500,000 tons of sugar westward, the British government had decided to declare its intention not to adhere to the convention beyond September, 1912, the earliest date at which she could withdraw from the convention.

In consequence of the increase of the price of sugar in the British Isles.

Cities Is Formed.Shoup Would Run Cars Over
Southern Pacific.Col. Green Rhapsodizes Over
This Balmey Clime.

(OFFICE OF THE TIMES, 21 S. Fair Oaks avenue.)
PASADENA, Jan. 17.—The initial step toward bringing about definite consideration of the proposed community of interest plans in which Pasadena, South Pasadena and Alhambra are interested was taken last night when the Inter-City Committee of Eighteen, representing the three municipalities, met at the Raymond

After several weeks' stay in Southern California waters the Taisai Maru, Japanese vessel with nearly two hundred men and a dozen officers, yesterday sailed for Yokohama. During the stay of the vessel in the South many receptions were given by the officers and much attention was paid them by orientals who live in this section. While in port Capt. Fafaki made an inspection of the harbor.

Training Ship Lifts Anchor.

On second reading the ordinance calling a bond election for the proposed garbage incinerator.

COMES FOR THE WINTER.
Col. G. G. Green, proprietor of the Hotel Green, arrived in the city in his private car yesterday, having come from Woodbury, N. J. He declared immediately upon arrival that he will remain in the city until the close of the winter tourist season, and said that Southern California is without a doubt the most comfortable spot on the continent. He spoke from actual knowledge, having experienced much cold weather in the East.

In the party that arrived with Col. Green are Mrs. Green, Miss Edyth Green, Dr. Clarence R. Smith and Dr. Charles H. Dunn.

Col. Green in anticipation of much motoring while in the city, purchased two automobiles by wire. They were delivered to him yesterday and in the afternoon he set out for his first ride.

SEE THE CROWN CITY.
The Santa Monica party that visited Pasadena yesterday numbered over 600. They were received by a committee of local men headed by President R. D. Davis of the Board of Trade. Automobiles were provided in which they were taken for a ride about a part of the city and to the Beach.

The visitors were in the city for two hours and a half and many acquaintances were formed between the Santa Monica band and the city and prominent local business men who had not met before. Mayor Thum extended a welcome in behalf of the city and City Attorney Carr and others city officials were included in their party.

Luncheon was served at the Hotel Maryland at 1 o'clock, after which the Santa Monica band left for other San Gabriel Valley points.

Artists' materials at Wadsworth's.

TO USE ELECTRICITY.
Preliminary steps looking to the electrification of the Southern Pacific Railroad between Pasadena and Los Angeles were taken at yesterday's session of the City Council. Paul Shoup, vice-president of the company, petitioned the city for permission to electrify the portion of the line that comes within the city limits, and W. V. Hill, who appeared for the Pacific Electric Company, gave an outline of the plans contemplated.

The intention, he stated, is to operate special electric trains from Pasadena directly to the Arcade depot in Los Angeles, there to connect with Southern Pacific trains for other points.

According to Hill, if such arrangements are carried out a connection of the Southern Pacific and Pacific Electric tracks will be effected on Fair Oaks avenue and by this route as many as seven or eight trains may be operated daily. They will

consist of baggage car, smoker and a first class coach.

The application was referred to City Attorney Carr, for an opinion, there having arisen some doubt in the minds of the Councilmen as to whether the document should bear the signature of the Southern Pacific Company, instead of the city, in addition to the signature of Shoup. City Attorney Carr is also asked for advice in the matter.

A special permit was granted giving the Pacific Electric Company permission to haul over its line material for use in the construction of the foothill boulevard.

City Plumbing and Building Inspector Shaver presented a communication setting forth the status of the controversy between that office and Contractor W. C. Crowell relative to the permit for the erection of the new Polytechnic High School building. He declared that he has never been able to secure a set of the plans and specifications of the building. He objected to the use of lead-lined iron pipe, which he said he had learned that the specifications called for in some places in the building. Other objections were made and the proposed plumbing.

The report was ordered filed and City Attorney Carr was requested to ascertain whether there is a law by which the Council can force the Board of Education to procure the much-discussed permit.

Along with other business transacted yesterday, the Council passed

PLANS ADOPTED
FOR PIER WORK.Long Beach Council Accepts
Gotham Firm's Figures.Will Reconstruct Old One
and Build New.Husband Locks Wife Out of
Family Home.

LONG BEACH, Jan. 16.—After hours of discussion, the City Council last night adopted plans offered by the Raymond Concrete Pier Company of New York for a single-deck concrete pier at Devil's Gate and the rebuilding of the present structure at Fine Avenue, which will be new except for the superstructure.

Under the plan adopted, the rebuilt

will be four feet higher than the present structure, and thereby afford less resistance to wave action. The Raymond people agree to submit a bid inside of \$107,000 for the Fine Avenue pier and \$50,000 for the Devil's Gate pier. If some other contractor secures the job, he will have to pay 5 per cent. for the company's plans.

The Fine Avenue pier will be 150 feet long and the piling will range in length from forty-five to sixty-four feet. The job will require 7000 barrels of cement, 4000 cubic yards of rock, 3000 cubic yards of sand and 270 tons of steel, and will be completed in six months.

The Devil's Gate pier will be 1125 feet long, single deck, built on piling thirty-four to fifty feet long. It will be eighteen feet wide except the last 100 feet, which will be forty feet wide. Its construction will require 2000 barrels of cement, 2181 cubic yards of rock, 1040 cubic yards of sand, and 160 tons of steel.

Having accepted the plans, the Board of Public Works will now call an election to vote a bond issue of \$155,000 to cover the cost of both structures. This will require about sixty days. In the event that the bond issue is defeated, the construction company will make charge for the plans which they have submitted.

Mr. Campbell, chief engineer of the company, who is at present on the Coast, says the company is anxious for this contract, as the Long Beach pier, because of its invading the open sea, is regarded as one of the most difficult feats of engineering.

IMPOLITE HUSBAND.
F. B. Harris, whose marital troubles have lately occupied the attention of the Superior Court and who last week was refused a decree of divorce, was today arrested on a warrant issued by Justice Harrison charging him with failure to provide, on complaint of Mrs. Harris.

The arrest followed an exciting time at the Harris home last night. Mrs. Harris is the second wife of Harris, who is 30 years of age. He has filed two suits for divorce, both of which have been dismissed, and during their pendency Harris has been paying alimony. The pair were living apart and by advice of her attorney, Mrs. Harris took up her quarters in the same house with her husband, reserving the first floor while Harris lived upstairs. Harris was at one time well fixed, but divided his property among his sons, reserving a mortgage of \$6000 on the interest of which, and a pension, he lives comfortably. He is a deep Bible student and the author of a work, "The Kingdom of God and the Heavens as Seen in the Parables."

FAMILY REUNION.
Mr. and Mrs. John Kempley, aged 30 and 70 years, respectively, are enjoying a family reunion of their only family of nine children, and their

wives. The family has not been united for twenty-five years. Three of the sons came from Ft. Dodge, Iowa, Green Bay, Wis., and Stockton, Calif., the other six residing in Long Beach.

The threatened trouble which was promised in the proposed intention of the city to tear up the Fair Lake spur tracks on Alamitos avenue at midnight tonight was avoided by the railroad company, which yesterday secured a temporary restraining order against the city. Fearing that the time limit expired last midnight, county officers came down last night and at midnight roused the Mayor, Council and City Attorney from their slumbers and served the notice upon them. The summons are made returnable before Judge Hutton next Monday morning. The order issued covers all of the road trackage on Ocean, Alamitos and California avenues, although the order of the Council removing the trackage extended only to the spur track on Alamitos avenue between Seventh and Tenth streets.

SAN PEDRO.
JAPANESE SHIP
LIFTS ANCHOR.

TEN DAYS' VISIT AT SAN PEDRO
IS ENDED.

Officers and Men Were Entertained by Their Fellow Countrymen and They in Turn Gave a Number of Receptions on Board Ship—Inspect Harbor Work.

SAN PEDRO, Jan. 16.—[Exclusive Dispatch.] After a visit of ten days at this port, the Japanese training ship Taisai Maru, Capt. M. Sasaki commanding, weighed anchor at 10 o'clock this morning and sailed for Yokohama direct.

Japanese and American visitors, which during their stay here the officers and men were granted liberal liberty. They have improved the time by visiting the many points of interest in and around Los Angeles. While in port the ship kept open house and dispensed hospitality to several hundred men and women, whenever the men of the ship went ashore.

The Taisai Maru is a training ship for the merchant marine and is manned by 130 cadets, who are being given thorough training in seamanship.

These cadets are of the upper classes of Japanese and are clean, athletic, intelligent young men, neat in their personal appearance, orderly and courteous in their conduct and imbued with an intense desire for knowledge. When on shore liberty they fairly swarmed over the various engineering projects and development operations under way of the inner and outer harbors. Maps, charts, folders and descriptive literature of all kinds were taken aboard the ship in large quantities by the cadets during their stay in port, and photographic post cards were mailed home by the thousands.

The customary naval regulations were considerably relaxed during the visit and the men were given extended shore liberty which enabled them to visit Pasadena, Long Beach, Riverside and other interior cities, some of them even making the journey to San Diego and Santa Barbara.

Capt. Morkichi Sasaki, who commanded the Taisai Maru, was on his second visit to Southern California, having visited San Diego on another training ship as executive officer several years ago.

While here Captain Sasaki made a thorough inspection of the construction of the big government pier, recently completed at a cost of three million dollars, and took home with him many ideas for the improvement of the harbor.

He expressed his appreciation of the reception accorded them while here and when the ship got under way this morning cadets encountered the flying and waving their farewells in true sailor fashion to the hospitable Southern California shore. The Taisai Maru is equipped with auxiliary power, but after the ship gets beyond the channel island the remainder of the voyage will be made under sail.

SAYS QUININE WILL
NOT BREAK A COLD.

HOW TO CURE THE MOST SEVERE
COLD AND END ALL GRIPPE MISERY IN JUST A FEW HOURS.

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dizziness, head and nose aches, sore throat, sneezing, watery eyes, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Little Stories
About A Big Bank—No. 8A Widow with
Two Little GirlsFound herself almost
without means, a few months
after her husband's death.She had never fitted herself for
any business occupation, yet she faced the
situation with courage.Her children were in school the greater part
of the day, and old enough—and well enough trained—to
care to a certain extent for themselves.So she felt she had time to work—if work presented
—and she soon began "house to house" canvassing for
a patented floor brush, which had considerable merit.The work was hard and discouraging at first, but this Widow had courage. Soon she
developed an aptitude for it—and scarcely a day passed that she did not several dollars of profit.She then started a "Savings Account" in this bank—"an education fund for my girls," she
called it—adding to her deposit weekly, whatever she could spare after the living expenses were paid.This Widow was an ordinary Canvasser, of course, when she started the work. But soon her
success attracted the attention of the District Manager of the Concern for which she was working.He employed her to train other Canvassers from time to time, and her clever methods of
training greatly increased the sales of the article offered, throughout the Los Angeles district.Next the General Agency for Southern California was offered her—a chance to make a
handsome yearly income.A considerable investment was required, however, and she could never have secured the place—but for the
fact that she had been saving steadily.As it was, her total savings were not large enough. Her Company accepted them as part payment, and he
pay the balance from month to month. The fact that she was a Money Saver influenced them to do this.With her two Girls in High School today, a comfortable home and a steady income, this Widow is recognized
as the dearest Sales Manager in the Southwest.She still keeps her Savings Account—adding a fixed percentage of her income to her comfortable balance each
month.And she is teaching her two daughters to save—for she attributes all her success to her Savings Account, and
what it brought her.Many Business Women, as well as Wives and Housekeepers, have Savings Deposits in this Bank
for the definite future use. Many are building up a snug sum of money
This Bank pays Four Per Cent interest on "Term" accounts—and Three Per Cent on "Savings
Ordinary" checking accounts.German American Savings Bank

Santa Paula Ranch

Dairy Land in the Center of a
Proven Dairying DistrictKINGS COUNTY ranchers and dairymen produce
1911, over \$3,300,000 in hogs, cattle, sheep and
products. Kings County farmers work under con-
ditions of soil, climate and water—and these conditions
found at their best at Santa Paula Ranch, where we are
offering 3500 acres of level land that is practically all
irrigated, either grain or alfalfa.Last Sunday we announced the opening of this
and all week we have been busy answering inquiries
dairymen and ranchers, many of whom are per-
sonally acquainted with the merits of this property.This land is today all ready for occupancy. It is
irrigated and either planted to alfalfa or grain or
planted.We urge you to buy Santa Paula Ranch lands
the benefit of the Spring crops, which will soon be
into maturity.When you buy Santa Paula Ranch land, you
supply of gravity water is decided with it. Later, you
and across every one of the 80-acre tracts, bring water
direct to your land. The only charge for water is
acre for the number of acres actually irrigated.Kings County is one of California's established
centers, and Santa Paula Ranch will soon be the
of Kings County activity, because of the splendid
tion facilities and markets, established water supply
soil.There are two classes of men who should investigate
Paula Ranch lands thoroughly. The first is the
and the rancher who wants good land in a proved and
ous locality; the second is the investor who wants
earning real estate that will yield 9 to 12 per cent. in
cash rentals without personal attention or supervision
addition to this cash return will show a steady in-
sales value.If you are interested in learning further about Santa
lands, fill out the coupon in this advertisement and mail it
We have just published a very handsome folder which
into the details of this property—gives you facts and
vital character.Ask the Old Bank of Hanford—20 years a force in the

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

GAS COMPANY STARTS STORM.

San Bernardino Patrons Protest When Rates Advance.

Council May Establish a Municipal Plant Soon.

Member of Commerce President Names Delegates.

San Bernardino, Jan. 16.—Because the gas company has seen fit to raise the electric rates and advance the rates for gas, a protest was held in the City Council chamber today, protesting the proposed change in rates. The new council has added the board to pass a resolution looking to an inquiry into the present rates and to advocate the reduction by the city of a gas plant. The matter of investigating the rates was referred to City Attorney with a request to report on the powers of the Public Utilities Commission created by the recent Legislature, and the protest may be referred direct to the commission. The change in rates is regarded as the first step toward the election of a gas plant, which is anticipated when the Southern Power Company has its high power line built into the city from Bishop. The new council announced that it will meet every

PRISONERS WORK.

Today Sheriff Raiford ordered eight misdemeanor prisoners to work on the roads. They were taken to the Rialto bench on Fourth street, where extensive cutting down and filling of grades will be undertaken.

The gang was in charge of Deputy Sheriff Showalter of Rialto. It has been numerous years since a like outside gang of prisoners has been active. The new order of things was endorsed by the Board of Supervisors. It is expected to continue the practice, thus saving largely in the costs of maintaining county roads, the road funds being one of the large items in county expenses.

DELEGATES NAMED.
S. F. Kelley, E. E. Katz and R. E. Swing were named today by President of the Chamber of Commerce to represent this city at the National Highway Convention at Los Angeles, January 25. The local delegates will be the first to leave for the convention via "Eucumonia and Upland" to Pasadena.

TERRACE SURVEY.
Surveys were completed this morning for another section of the proposed Rialto Terrace boulevard planned to crown the terrace west of this city from Rialto to Colton. The section completed today extends from Ferrie to San Bernardino avenue. The boulevard promises to be one of the most attractive in the State.

ANDERSON FUNERAL.
The funeral of John Anderson, Sr., occurred from the residence of his daughter, Mrs. Walter Kohl this afternoon. The services were conducted by the Rev. Mark B. Shaw, the local lodge of Elks, of which the deceased was a member.

Lady Had Designs.
Mrs. Anderson had designs on the life of the city of a gas plant. The matter of investigating the rates was referred to City Attorney with a request to report on the powers of the Public Utilities Commission created by the recent Legislature, and the protest may be referred direct to the commission.

CLEOPATRA, EVE AND ST. MATTHEW IN WILL CASE.

[BY DIRECT WIRE TO THE TIMES.]

Santa Barbara, Jan. 16.—[Exclusive.] Mrs. Mary C. Leake, who was a nurse in the army of Mrs. Harriet W. Patterson for a number of years, and for whom the Pattersons had built a spiritual temple on her property at Santa Barbara, died this morning at the residence of the Universal Brotherhood and Theosophical Society, in a rooming house at the corner of Third and Third streets, where she was introduced in evidence at the reading of the Thurston will.

The latter reader says of the relationship and culture of the theosophists, "I like to meet Mrs. Leake and she may come time. It is not she who is the subject of the will, but that she had something of a

reading of the paragraph Mrs. Katherine Tingley, principal of the school, appeared, and the reading was interrupted by the death of the theosophists found comedy in the reading she joined in subdued

and the admission from Leake between him and the wealthy widow. Mrs. Patterson there existed a better relation than was usual between a client and client, were the best of testimony that caused the interest to be taken in the property.

A woman friend was introduced, alluding to business affairs and the remodeling of the Pattersons' residence. They were introduced by the death of the theosophists found comedy in the reading she joined in subdued

REDLANDS.

CHRISTIAN WORKERS IN ANNUAL CONVENTION.
Redlands, Jan. 16.—The eleventh annual convention of the Christian Workers of the County Union of the Redlands was held at the Redlands Hotel last evening. The convention was a successful one, and a large number of delegates from the various churches of the county were present. The convention was held at the Redlands Hotel last evening. The convention was a successful one, and a large number of delegates from the various churches of the county were present.

The annual installation of officers of the Blue Lodge of Masons and the Royal Arch Masons was held this evening. This is the one Masonic function of the season to which the families of Masons are always invited, and the ceremonies are followed by a banquet and social time. The Royal Arch officers are: Charles E. Latham, W. M.; H. P. D. Kingsbury, S. W.; Charles H. Clock, J. W.; R. M. Hamilton, Treasurer; Otto G. Sues, Secretary; James A. Stone, Manager; Charles H. Covell, S. D.; S. G. Hinkley, J. D.; W. A. Hartman, S. R.; Reese Davies, J. S.; S. S. Waldo, Tyler. The funeral of Louis Raffour, one of Santa Barbara's best known citizens who died Sunday night at the age of 72, was held this afternoon. A large crowd of sorrowing friends attended. Mr. Raffour was the owner and proprietor of the Raffour Hotel. He came here from France shortly after the close of the Civil War and spent the remainder of his life in Santa Barbara in the hotel business. Mr. Raffour died in the old St. Charles Hotel on State street, but later obtained the property where the Hotel Masefield now stands. Mr. Raffour leaves a widow and four sons, Adrian, Leopold, Steven, Philip and one daughter, Mrs. A. Goux.

NOTED SPEAKER.
C. W. Beers, County Horticultural Commissioner, has received word from Dr. A. J. Cook, State Commissioner of Horticulture, that one of the principal speakers at the coming State convention of the fruit growers to be held in Santa Barbara, will be Dr. Cyrl G. Hopkins of the University of Illinois. He is an expert on fertility and soil matters. Dr. G. Hopkins is another well-known speaker, who will address the convention. The convention will be held on June 11-14, at the Potter Hotel, elaborate preparations being made to entertain the large number of delegates. When the Political Study Club, which is composed of many women voters as men, met last night to hear the address on street paving the

discussion which followed waned and the brunt of all antagonism was City Attorney W. P. Butcher. He started to explain some of the law relating to street work and his remarks stirred up a veritable hornet's nest. The women had their say and Mr. Butcher found that it was not the easiest thing in the world to give extemporaneous answers to the questions hurled at him from all parts of the house. The meeting was largely represented and all waiting harvest stone in evidence than at any civic convention ever held in this city.

NEW RURAL ROUTE.
WASHINGTON, Jan. 16.—[Exclusive.] The Postoffice Department has established rural route No. 1 at Ethandale, Riverside county. It is twenty-five miles long and will serve 150 families. Service begins April 1.

RECH SENTENCED.
SANTA BARBARA, Jan. 16.—John Rech, the Italian convicted last week of having murdered his new-born infant, because, he said, living was too expensive, was sentenced to life imprisonment today. He was taken to Santa Quentin at once. Before sentencing was pronounced on him the Italian was given permission to talk to his wife for a few moments. The woman, also under indictment for infanticide, will be placed on trial January 25. In contrast to his former violent outbreaks, Rech was calm today and received his sentence in stolid silence.

GATEWAY FROM NORTH TO SOUTH.

Ventura Manifests Much Interest in State Road.

Will Send Big Delegation to San Luis Obispo.

Pacific Telephone Company Puts in New Exchange.

Ventura, Jan. 16.—All the Chambers of Commerce of this end of the State will meet Saturday next by representatives at San Luis Obispo, where a gathering of the good roads people of the Coast counties is to be held to determine on highways to be built.

This body is now busy determining where roads shall be placed and what ways are to be selected. This city and county is perhaps more vitally interested than any other section by reason of the fact that it is the real gateway between Northern and Southern California for the great coast highway to be built.

In its Rincon Beach boulevard now happily building, it furnishes the most important link of the great chain of roads. After reaching this city with the road, then comes the choice of four routes into the city of Los Angeles, the great objective point. One of these is Malibu, where a road will have to be built. This road will run through Oxnard. Another road is by way of the Conejo grade, already a very good road and one of the old highways, and which would also take in Oxnard. Another road, now being agitated, is a good road through the Simi ranch and to Santa Susana and by way of Chatsworth.

The completion of the great Santa Clara River will make this a favored, direct route, and these last leave out Oxnard and Camarillo, but those two points could reach the highway by short cuts. There is found much favor with this proposed road. Another and an old road is by way of Santa Paula, Camulos, Newhall and San Fernando.

By reason of the fact that this county will cut so wide a swath in the road roads of the coast of Southern California, there will be a big delegation at San Luis Obispo Saturday, with each section of the county represented and all waiting harvest stone in evidence than at any civic convention ever held in this city.

POOR LO SAVED FROM HIMSELF.

Suit on to Restore Land of a Chief's Daughter.

Protect Widow of Victim of Tribal Superstition.

Son of Black Eagle, Sioux Chief, Vindicated.

What is perhaps the most remarkable example in the history of the American Indian of a paternal government's protection of poor lo from the results of tribal superstition...

Years ago, in the days when the Sioux were yet supreme in their own territory and their signal fires blazed defiance to the troops sent into the Northwest for the protection of a handful of white settlers...

As though he were indeed the child of an evil star, the tiny papoose never had anything but hard luck. He was barely 4 years old when the Sioux went on the war path...

His parents died and his tribe scattered. The papoose was carried far to the south by wandering squaws and ultimately found his way into the family of a lonely squatter, Jerry Conwell...

Finally, however, the call of the blood came to him and he became an Indian again, the only outward semblance remaining to him of his white training being the name of Jerry Conwell...

Because of his white training and the superior knowledge he displayed of things little short of occult in the eyes of the aborigines...

JAIL PACKING PLANT NOW.

Over a Hundred More Locked Up than City Prison's Capacity.

Yesterday morning at 7 o'clock there were 326 prisoners in the City Jail. Its normal capacity is 150. The place was a human packing-plant.

"What we are going to do when the rainy season sets in I have no idea," said the captain in charge of the Central Station yesterday.

The average of one arrest every eight minutes, lacking only a few seconds, was made by the police during the twenty-four hours ended yesterday at 7 a.m.—a total of 173.

Those taken in by the detectives. Sixty-two were for intoxication and thirty for vagrancy. The number is a record-breaker under ordinary conditions.

Frank Griffith, President of the Los Angeles Country Club, who is critically sick.

LIFE IN THE BALANCE.

Popular Head of Big Country Club Stricken With Pneumonia and Friends Greatly Alarmed.

News that the life of Frank Griffith was hanging in the balance yesterday at the family apartments in the St. Lawrence Hotel, St. James place and Scarbary street, plunged the entire membership of the Los Angeles Country Club in despair.

Two physicians constantly in attendance since he became sick last Friday he himself has prophesied that he might not recover.

His gloomy view may be due to the fact that he suffered terribly from a previous attack of pneumonia at Jacksonville, Ill., nine years ago, when he made a visit to his old home city.

Griffith has resided in Southern California twenty years, dividing his time between this city, where he is interested in mining investments and real estate, and Rancho Santa Fe, where he has large interests in the Stanford Mining and Reduction Company and the Santa Ana Gold Mines Company.

One of his business associates during all these years has been Frank S. Hicks, who was graduated with Griffith in the same class at Princeton. Griffith is a member of the California Club and for six years has been president of the Los Angeles Country Club. He has devoted practically all of his time for several years in establishing the latter club on its fine grounds at Beverly.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.
The City Council yesterday ordered the advertisement of the City Hall site on Broadway, for sale, bids to be received in three months.
Suits were filed in the Superior Court yesterday aiming to prevent the erection of the proposed building for the Water Department at Fifth and Olive streets and to stop further payments on the site.

At the City Hall.
ORDER SALE OF CITY HALL SITE.

CIVIC CENTER PROGRAMME WINS BEFORE THE COUNCIL.

Will Receive Bids in Three Months and Then Decide Whether Condition of Other Projects Justifies Deal—Four Thousand a Foot Suggested as Minimum Price.

A start on a new City Hall was made by the Council yesterday, when the resolution of Councilman Lusk calling for the sale of the present City Hall site, was carried by a vote of 5 to 3. The victory was won after a hard fight and much oratory.

President Williams, Mayor, Bakouk, Langdon, Lusk and Topham supported the resolution calling for the sale, and McKenzie, Reed and Whiffen opposed it.

The instruction given by the City Attorney was to prepare the ordinance ordering a sale, but no definite instruction was given as to the minimum price to be fixed, as the charter requires. Lusk suggested \$400,000 as the minimum the city can afford to accept, but Senator Gates declared that \$250,000 is about the right amount—\$4000 for each of the 150 feet of frontage.

The fight against the sale was led by Reed and McKenzie. At the outset, Reed sought to stifle discussion of the whole project by moving to table the favorable report of the Land Committee, of which Topham is chairman. Lusk said this motion precluded discussion and Reed, with seeming reluctance, withdrew the motion to permit Lusk to speak. He was followed by many others. Lusk explained that it is the purpose of the committee to advertise the present City Hall for sale, the bids to be received in ninety days. By that time the finances of other projects will doubtless be settled. If a satisfactory bid is received for the hall, Lusk said the Council could then debate the wisdom of accepting it and devoting the money to the erection of the new City Hall. If the finances of other projects are not settled, Lusk said, the bid will be rejected and the project abandoned for the present.

Topham moved the adoption of the report, saying that the Temple block site had been bought for a City Hall with the aid of north side property owners and that he believes the City is morally bound to build on the site. He urged the stopping of the water building by any means and the use of the fund thus diverted to providing room for the water department in the Temple Block building.

The principal speech for the Lusk plan was made by Senator Lee C. Gates, representing the north side property owners who contributed \$125,000 to the purchase of the Temple block site. He said the City had accepted this money and in good faith ought to perform its moral duty. He said the civic center idea, the antagonism to the water building, the need of a new hall creditable to the city and the elimination of the present firetrap all urged the new project. The money to be obtained from the sale of the present site will build a new hall and a necessary structure. The location is in harmony with the hope for ultimate city and county consolidation. Though Gates confessed himself against consolidation.

Those who argue that we cannot build because we have no money, said Gates, "are loud in urging us to purchase the Normal School site. We need no money to build a City Hall. We have the Temple block site and the \$125,000 the City Hall will sell for will do the work. Do you want it?" The other phase of the Lusk resolution, that of stopping the water building at Fifth and Olive streets, was referred to Councilmen Whiffen and Lusk as a "Committee on Moral Suasion" to do what they can in heading off the Public Service Commission assembly. The Lusk resolution called for a report from the City Attorney as to the legality of the water building plans, but Bakouk explained that the attorney had answered this same question a few weeks ago for the Council.

Under the action taken yesterday the Council must adopt an ordinance offering the present City Hall for sale and indicating the lowest price the Council will consider, with the usual provision that the Council may reject any or all bids. The ordinance is subject to a referendum. If antagonists of the Temple block site choose to invoke it.

WATER-BUILDING BIDS. LAW SUIT INTERVENES.

The Public Service Commission opened the bids for the proposed water department building at Fifth and Olive streets, yesterday afternoon, and referred them to the Building Commission for analysis and recommendation.

The bids were as follows, on the general specifications: F. L. Somers, \$289,897; J. V. McNeil, \$265,697; National Fireproofing Company, \$256,297; F. O. Engstrom, \$217,859; C. J. Kubach, \$227,500; W. Crowell, \$218,466; Alta Planning Mill Company, \$223,468; J. D. Kneen & Co., \$274,500. The general specifications do not include the elevators and ornamental ironwork, electric wiring, heating, plumbing and some other items, the elevators and ironwork being the most expensive. The lowest bid for this item was \$44,000. The lowest aggregate bid, taking the lowest in each item, for the complete structure, is \$229,172.

Immediately after the opening of the bids and the filing of them to the committee, the commission was served with legal notice citing them to show cause why they should not be restrained from erecting the building. The expressed determination of the members of the commission is to proceed with the work just as rapidly as the removal of legal obstructions will permit.

MAIN STREET SITE. DENY CHANGE TO BROADWAY.

Main street, below Tenth street and above Tenth street, will remain Main street. This was decided by a vote of 5 to 1 at the session of the Council yesterday—McKenzie being the only vote in favor of the change asked

for by the South Main-street association.

The proposal to give Main street, south of Tenth, the name of Broadway, met a most spirited opposition from the Native Sons, the Pioneers and a host of individuals. H. C. Lichtenberg, grand president of the former organization, declared the old street names that preserve the early history of California are being obliterated by real estate speculators. So eager are the speculators to borrow the name of Broadway, he declared, that the street will soon form a loop with the ends in Boyle Heights.

An interesting phase of the discussion was the debate between Senators Hurd and Gates. Hurd tried to remain on both sides of the question and made allusions to Gates that brought derision from the crowd favoring the change of name. Then Hurd said some of the things that the natives didn't like and they hissed him. Hurd had a lot of excitement, but for some reason whether he thought the name should be changed or not, Gates answered his fellow-Senator with an argument against changing names for the benefit of promoters. The discussion closed with an appeal from "Uncle Jerry" Andrews for the "Abolition of the name of our old friends," the "fool friends" being those who want to make Main street Broadway and the vote following was almost unanimous against the change.

The effort to change the name has been contemplated for two years and was backed by the present City Hall signers of 30,000 feet of frontage on the street.

NEW BEACH LINE. SANTA MONICA CONSENT.

The Council yesterday adopted the majority report of the Legislation Committee on granting a change of motive power from steam to electricity for the Santa Monica air line. The minority report of Reed, providing many drastic things for the Pacific Electric Company, operating the line, was supported by Reed alone, and he was the solitary vote against the adoption of the majority report. Under the new terms the Pacific Electric will accept the ordinance and convert the line.

When the reports were under discussion W. A. Rennie, Jr., secretary of the Venice Trustees, the Venice Trusts, the Venice Club, the Good Government League and the Merchants Association, urged the granting of the change of motive power, on the ground that the whole beach region will be benefited by the additional service, that it will reduce fares in Santa Monica district and will save considerable at the Hill street station in Los Angeles. Consideration of the ordinance authorizing the Board of Public Utilities to investigate street railway fares was postponed for another week because W. E. Dunn, counsel for the Huntington lines, could not be present.

THREE TO FIVE. AQUEDUCT INVESTIGATORS.

The Council still trying to appoint a board of aqueduct investigators. The three men selected by the Special Committee last week—C. E. Warner, F. C. Wheeler and J. A. Potter—were reported to the Council by the committee yesterday, but the report was that they were not accepted. When Bakouk asked further time for the committee of which he is chairman to find new investigators, he also suggested a new appointment committee. Back of this request probably was the wish of Reed's Socialist supporters to have the committee do with the selections. Reed was aided by the rest of the "foxy four" in this effort. Bakouk has five members, and by Whiffen and President Williams, but they would not accept the discharge of the committee.

Accordingly, Bakouk's committee must find new investigators. Instead of one. When the time comes the Socialists will renew their efforts to counter the action of the majority. They may even insist that Wheeler, one of the candidates in the last election, already chosen, is not to be one of the new investigators. In support of this, they will have the assistance of the committee.

No Harbor Experts.

Without a word of comment yesterday the Council unanimously adopted the recommendation of Reed's Harbor Committee that the recommendation of the seven civic bodies for a board of experts to plan Los Angeles Harbor at San Pedro be rejected. The recommendation has been before the Council twice. Once it was sent in by the organizations. It was received in silence. Yesterday it was dismissed with the same contempt.

Aqueduct Salvage.

Selling aqueduct salvage was discussed at the meeting of the Aqueduct Advisory Board yesterday. The salvage will amount to about \$1,000,000 when it is ready for the market and this amount includes the cement mill at Monolith, which cost \$200,000, and is capable of producing 1200 barrels daily. It is hoped to dispose of much of the salvage and use the money in final work on the great project, thus saving bond issues. The sale of the cement plant and some other property, including land in the Tehama Canyon and the Owens Valley, will probably be presented to the Council in a few weeks.

Information Wanted.

An information bureau for the City Hall, where all kinds of questions will be answered, is a project Councilman Topham promises to spring at the session of the Council next week. He intends it to aid visitors to the City Hall who are not acquainted with municipal routine and do not always get civil or intelligent answers when they go in the wrong office.

STRANGE ASSORTMENT.

Sausages, socks, spikes and an assortment of underwear constituted part of the evidence produced before the Justice of the Peace Young yesterday when Juan Moreno and Felix Moras were arraigned on a charge of grand larceny. The stuff was mingled in a sack with some of the underwear and was identified yesterday as having been stolen on a night after the 4th of July from the Pacific Electric storeroom near Ramona. The two men had nothing to say and were committed to jail for the Superior Court in \$1500 bail each.

HE CAN'T REMEMBER.

Because his girl ran away and married another fellow, Harry Milton Humphreys explained as the reason he went on a drunken debauch and he did not know what he had been doing since. In court, when arraigned on a charge of passing a fictitious check for \$12.50, he was silent, and Justice of the Peace Summerfield bound him over for trial before the Superior Court in \$1500 bail. Humphreys drove a wagon for a bakery until two weeks ago.

At the Courthouse.
BLOW AIMED AT WATER EDIFICE.

SUIT TO HINDER CONSTRUCTION OF BUILDING FILED.

Judge Issues Order to Show Cause and Arguments Will Be Heard Monday—Injunction Would Stop Further Payments on Site at Fifth and Olive Streets.

Suit to restrain the Board of Public Service Commissioners and H. T. Lee, P. M. Johnson, James C. Keys and R. F. Del Valle individually from proceeding with the construction of a new building for the water department and further payments on the lot at Fifth and Olive streets, was filed by Joseph Mesmer in the Superior Court yesterday, and an order to show cause, returnable Monday in Department Nine, was made by Judge Hutton.

Under a law recently enacted by the Legislature, a preliminary injunction cannot be granted without notice to the opposite side, unless it shall appear that irreparable injury would result. As Mesmer was not prepared to show this, the court refused to grant the injunction. Mesmer recites in his complaint that November 8, 1909, the Board of Public Service Commissioners, pretending to be acting under and by virtue of the power and authority given it in Article 18, contracted to purchase a lot for \$195,000, upon which has been paid \$17,000. The board assumed a mortgage of \$120,000 agreeing to pay off the indebtedness in three installments. The second installment became due November 12 of last year and now remains unpaid. The third installment will become due November 12 next, and Mesmer declares that unless restrained the board will pay these installments.

The complaint alleges that sufficient funds were not on hand when the deal was made and there are not now and will not be sufficient funds derived from the revenue of the water department. If not restrained the board will enter into a contract for \$100,000 for the erection of a new building out of the sale of water.

Mesmer holds that Article 18, under which the board is authorized to enter into this step, is unconstitutional, and in violation of section 13 of Article 11, of the Constitution.

Judge Bordwell will hear argument on the motion to show cause.

LEGAL POINT RAISED. JAILED MAN FILES PETITION.

An interesting legal point is presented in the petition of a man now serving a seven-years sentence in San Quentin for the appointment of an administrator in the estate of his wife. Mrs. Edna F. Compton died two months ago, leaving diamonds and jewelry worth \$1200. The man in jail is her husband, who was sentenced to San Quentin, convicted of burglary. Compton's estate is now in the hands of an administrator.

Compton nominates in his petition Mrs. Ollie Emerson as administratrix of his wife's estate, and the petition is opposed by Attorney Stephens for the estate. Stephens holds that under Section 672 of the Penal Code, "A sentence of imprisonment in the State Prison for a term of more than one year suspends all the civil rights of a person sentenced and forfeits all public office and the right to hold any office or power during such imprisonment."

Judge Rivers ordered briefs submitted. J. W. Crowley is acting administrator.

FINDS MISREPRESENTATION.

Judge Bordwell handed down an opinion yesterday in the suit of Michael Browne against the San Gabriel River Rock Company, involving a transaction in which Browne was of interest to corporations.

Browne, it seems, came here from the Middle West and invested in fifty shares of stock of the San Gabriel River Rock Company, paying \$5000 on the sale, of which Agent Peck received a commission of \$1000. From the evidence, the court found it was represented to Browne that the stock was non-assessable, which representation was not true and the court holds it was made for the purpose of inducing Browne to purchase the stock, which otherwise he would not have done.

LAUGHING AS HE PASSES. COMPLICATIONS IN ARRESTS.

I. E. Brewer and Mary C. Gardner were arrested Saturday on a charge of contributing to the dependency of Gardner's child. They were arraigned before Judge Murphy, pleaded not guilty and asked for a jury trial.

While they were waiting for Bailiff Strohm to take them to jail, Brewer swore out a complaint for the arrest of John D. Gardner and Edith Simpson on a similar charge. This resulted in a complication as Edith Simpson is Brewer's sister. When Bailiff Strohm escorted Gardner and the woman to the county jail, Gardner's wife was waiting to see them pass in. As Mary was out on bail, she had the laugh on her husband and took no pains to conceal her sarcasm. Gardner will appear in the Justice Court this morning to answer to a charge of failure to provide.

Attorney represents Gardner and Edith Simpson and their trial this morning before Judge Murphy as will file a demurrer to the complaint and attempt to prove the unconstitutionality of the juvenile law.

RESTRaining ORDER. BANKRUPT TRUSTEE SUES.

George M. Pierson filed suit yesterday against A. B. McDonald and the Arrowhead Cold Springs Company to restrain the latter from executing to McDonald and asks for an order to show cause why the company should not be restrained

SECURITY TRUST & SAVINGS BANK

This bank has acquired the business, assets and good-will of the Equitable Savings Bank, and with combined resources of more than \$87,000,000.00, possesses largely increased facilities for serving the public.

The Equitable, as a Branch of the Security Trust & Savings Bank, will be maintained at the old location, in the Equitable Building, corner of Spring and First streets, for the convenience of former patrons of that bank and for those depositors of the Security who prefer to do their banking in the northern part of the business section of the city.

The advantage of doing business with the Oldest and Largest Savings Bank in the Southwest will be as available to depositors in the Equitable Branch as to those who have their accounts in the main office, in the Security Building.

The personnel of the Equitable management will remain the same and the Security's policy of uniform courtesy to all depositors, small or large, will continue to prevail in all departments.

Trust Department

This department is located on the ground floor of the main banking room in the Security Building, at Spring and Fifth streets, and is prepared to give particular attention to those matters in which it acts as Executor, Administrator, Guardian or Trustee of Estates. It also acts as Trustee under corporate mortgages and deeds of trust, as registrar and transfer agent of corporate securities, as Fiscal Agent of Corporations and Assignee and Receiver.

Steamship and Tourist Agency

The Hugh B. Rice Steamship and Foreign Tourist Agency, which has been in business in Los Angeles twenty-three years, is now associated with and under the direction and control of the Security Trust & Savings Bank, and is located in the basement of the Security Building, at Spring and Fifth streets. This agency has exceptional facilities for arranging tours to all parts of the world and to Pacific Coast ports.

4 Per Cent Interest Paid on Term Deposits
3 Per Cent Paid on Special and Ordinary Savings Accounts

from encumbering or conveying the property pending the suit. The complaint alleges that the company was dominated and controlled by McDonald, who was president, director and general manager. It is alleged that the resolution authorizing the execution of four chattel mortgages was passed at a special meeting at which only four of the five directors were present. The company has been adjudged an involuntary bankrupt. It had offices at 1515 East Second street, the estimated value of the plant being \$25,000. Pierson was elected trustee in the bankruptcy proceedings.

WANTS IT IN WRITING. DEAL IS COMPLICATED.

After listening to the arguments of the attorneys in the suit of the Santa Anita Investment Company against Samantha Kelly, involving a complicated real estate deal, Judge Finlayson asked the lawyers yesterday to submit briefs, stating that by so doing much of the sophistry which creeps into arguments will be eradicated. Further, it was intimated that she had gone into the judge's chamber all of which seemed to indicate that she had influenced her husband in deciding the decree in favor of Mrs. Keating.

In the property to the Santa Anita Investment Company, each reserving a lot \$2x150 feet. Then Earl assigned the title in his lot to Albright for \$250, the latter to have the right to select another lot. This choice, however, he did not exercise within the time stated. Samantha Kelly figures in the case through an execution on the property.

JUDGE CHURCH COMING. TO PRESIDE IN KEATING CASE.

Judge Monroe received word yesterday from Judge Church of Fresno that he will be in this city Saturday morning to hear the motion for a new trial in the Keating divorce case. Judge Church will preside instead of Judge Monroe, because he tried the case and granted Mrs. Keating a decree. Later Keating's attorney discovered what he alleged to be sufficient new evidence upon which to move for a new trial. It was alleged that Mrs. Church, wife of the judge, talked to Mrs. Keating in the courtroom, was seen with her on a street car and was her house guest.

Further, it was intimated that she had gone into the judge's chamber all of which seemed to indicate that she had influenced her husband in deciding the decree in favor of Mrs. Keating.

Oil News of Interest

Fields in General

Some light is thrown on the all situation by a letter received in this city from M. A. Spelacy, who has been spending some time in the Tampico fields, and who frequent trips to that territory operations of the Mexican Petroleum Company and its subsidiary, the Doherty-Casfield agency, of great interest to the many stockholders.

Spelacy says the Huasteca is a unique experience. Its National Petroleum Company, he says, could not be completely shut out through the adjoining great quantities. This position eliminated when the gates were back pressure of over 250 pounds at this point the flow was checked and the production was reduced to about 150 barrels a day. To take care of the production was the problem confronting the company. An electric line was completed to Tampico, millions of barrels of storage.

Several new contracts were made for the disposal of the oil of the Huasteca wells, the Standard Oil Company, the Mexican National Railway and the Mexican Petroleum Company. Spelacy quotes Doherty as saying that he could not carry the oil to the market. Spelacy quotes Doherty as saying that he could not carry the oil to the market. Spelacy quotes Doherty as saying that he could not carry the oil to the market.

It has been figured by experts in the present held-in production of the Huasteca oil fields is a little over 200,000 barrels a day, and the production of all the California fields is about 350,000 barrels daily.

INSPECTION OF LINE. PARTY IS ENTHUSIASTIC.

James O. Turner, superintendent of the Guaranty Pipeline Company, returned to Los Angeles yesterday from a tour of inspection of the proposed line from Los Angeles to Ventura.

Turner was accompanied by C. E. Warner, assistant superintendent of the Guaranty Pipeline Company, who will submit bids on the building of the line. All were enthusiastic over the outlook. Turner, R. E. French, W. E. Slawson, F. E. Fitzpatrick, J. J. Maister, R. E. French, W. E. Slawson, F. E. Fitzpatrick, J. J. Maister, R. E. French, W. E. Slawson, F. E. Fitzpatrick, J. J. Maister.

R. L. Cox, president and general manager of the Guaranty Pipeline Company, has just returned to the office of the Maricopa Pipeline Company, which is just now in the process of building a line from Los Angeles to Maricopa, Arizona. The line is to be built on the old Maricopa Pipeline Company's line.

William H. Hines, of the Argentine Petroleum Company, has been making a tour of the oil conditions in the Argentine. He is expected to return to Los Angeles in a few days, and will be returning to his South American headquarters.

Controlling the Bulk.

An effort is being made to control the bulk of the oil of the field by the Maricopa Pipeline Company. The company is building a line from Los Angeles to Maricopa, Arizona, and is expected to complete it in a few days. The line is to be built on the old Maricopa Pipeline Company's line.

BIG PRODUCTION OF MEXICAN OIL.

Spelacy Throws Some Light on the Situation.

Doherty Companies Are Getting Oil to the Market.

Oil News of Interest from Fields in General.

Some light is thrown on the Mexican oil situation by a letter recently received in this city from M. A. Spelacy, who has been spending some time in the Tampico fields, and who makes frequent trips to that territory. The operations of the Mexican Petroleum Company and its subsidiary, the Huasteco Petroleum Company, controlled by the Doherty-Candell syndicate, are of great interest to the many California stockholders.

Spelacy says the Huasteco has had a unique experience. Its No. 7 well at Tampico, the second, to be completed, could not be completely shut in, as an attempt to do so caused the oil to escape through the adjoining surface in great quantities. This feature was anticipated when the gusher showed a high pressure of over 250 pounds. At this point the flow was checked to about 25,000 barrels a day, and it has been producing at this rate for over a week.

To take care of the enormous production was the problem confronting the company. An eight-inch pipe was completed to Tampico and sections of barrels of storage hastily secured.

Several new contracts were made by Spelacy for the disposal of the oil from the Huasteco wells. The Standard Oil Company bought 240,000 barrels a month at the Mexican National Railway 10-11 barrels a day. A tank steamer named and shortly two more will be added to carry the oil to eastern markets. Spelacy quotes Doherty as saying that he could market 500,000 barrels on the Atlantic coast if he had the means to carry the oil.

For several weeks Doherty and three other oil companies have been having an inspection of the properties of the Mexican Petroleum Company and its subsidiaries, and since they left the company with the price of the common stock of the Mexican Petroleum has risen from a little above \$30 a share to about \$45 a share. The only reason for this is that the company is getting its physical facilities ready to handle the great production, and is finding markets to take it.

It has been figured by experts that to meet the production of the new producing companies operating in the Mexican oil fields is a little under 200,000 barrels daily. The present production of all the California fields is about 225,000 barrels daily.

DISCUSSION OF LINE.
PARTY IS ENTHUSIASTIC.
JAMES G. Turner, superintendent of the Guaranty Pipe Company, returned to Maricopa from a trip across the country, having completed an inspection of the proposed line from Maricopa to Ventura.

It was accompanied by C. H. Turner, assistant superintendent, and a number of contractors and engineers, who will submit bids on building of the line. All were enthusiastic over the outlook. The line included N. H. French, W. H. French, F. E. Fitzgerald, J. J. Ma, C. H. Burdick and T. O. Turner.

L. L. Cox, president and general manager of the Guaranty, has just returned from the Maricopa field, where he has been on inspection of the company's 12,000 to 14,000 required to build a line from Maricopa to Ventura, proposed following the proposed line of the oil pipe line.

During the Conditions.
The situation of the Argentine oil fields, who has been making a study of the conditions in the field for several weeks, and has returned the other day with a report to his South American friends.

Controlling the Buick.
An effort is being made to control the Buick car in the Midway field by the Buick Motor Company. The car is a 1911 model and is being used in the field. The Buick Motor Company has been successful in controlling the car in the field.

Oil News and Petroleum.
The oil news from the California fields is very interesting. The oil production is increasing rapidly and the oil companies are working hard to get the oil to the market.

HARBOR.

Treimoe, the agitator, is said to be in a high state of peeve. He probably prefers it to a state of captivity.

SOMETHING STIRRING.

A dispatch from Sacramento states that the Governor of California and the Secretary of State have made up. Some people will wonder what they have made up and when it will break.

PUNISHMENT.

Eastern thieves in high finance got away with \$15,000,000 and were sentenced to two years each in prison. We tremble to think of the terrible fate which might await them had they been greedy.

COMMENDABLE MOVE.

Ventura has decided to admit women into full membership in its Chamber of Commerce. Garza has a Chamber of Commerce composed entirely of women and it has served the community with high efficiency.

A POSSIBLE SOURCE.

Automobiles making the run from San Bernardino say that while on the desert they saw a rainstorm 200 feet wide descending from a calm blue sky. Perhaps such visions might be traced to an oasis rather than a mirage.

THE POOL AND HIS MONEY.

The fool and his money are never parted so quickly as in some tangle with a woman. We have not much sympathy for the man who comes into court praying for financial relief after he has made a silly investment in matrimonial futures.

VALUABLE SERVICE.

The president of the Woman's City Club is making a public campaign to take Arroyo Seco into the city. In doing so she is serving Los Angeles most admirably. Arroyo Seco is a great natural park and the vote on its admission should be favorable.

THE WHIP HAND.

The fact that missionaries arriving from the war zone in China tell of the precautions taken by the revolutionists to protect Christians is another demonstration of how completely the revolution movement is dominated by the Chinese education of the Chinese who have lived in the United States. The State of California has practically been the birthplace of the Chinese republic.

THREE ONE CHANCE.

Utah boosters have hit upon the clever plan of giving away a farm at the Los Angeles land show. Of course, these astute gentlemen do not expect to capture a Californian, since nobody would leave Los Angeles for a dozen farms somewhere else. Their hope is to make good with some tourist who hasn't been in the city the necessary twenty-four hours to make him a confirmed Angeleno.

HOPEFUL SIGN.

It speaks well for the men and women of Seattle that it is difficult to find twelve persons there for a jury who have not made up their minds about the case of a faddist woman doctor under whose care another woman was starved to death while kept on a diet of asparagus broth. The foolkiller is not needed in such cases, for the wise will not patronize these crank cure-alls, and the fools who go die under the treatment.

NOT IN THE CARDS.

A good many things seem to happen that are not in the cards. At Santa Barbara a sailor was drowned, and in New York the watchman of a life insurance company's building was burned to death. Accidents keep the world from becoming monotonous by happening where they are never expected, and the most a man can do on general principles is to rejoice in the things which seem good to him and to dodge the bad ones when he has the chance.

THE STITCH IN TIME.

A minister in a little Massachusetts village advocates the teaching of sex-hygiene in American churches, as being of more value to the youth of the twentieth century than a knowledge of what happened to the Jews in Egypt or Babylon. Undoubtedly men and women might be spared much pain and embarrassment by being better informed on natural subjects when they are growing up. In Los Angeles the Social Conference Workers have emphasized the teaching of such hygiene by taking it up in factories and stores at noon meetings, and the plan is to be commended.

GAY SANTA FE.

The first Statehood officers of New Mexico were inaugurated Monday at Santa Fe. Perhaps in no capital of the United States, outside of Washington itself, has there been so much diplomatic society as at Santa Fe in the last thirty years. The little capital city, with its 600 Americans and its 5000 Spanish-Americans, has been carried through two months of social excitement during every session of its Legislature. Its functions have often achieved distinction and notables from the world over have been entertained at them. The New Mexican people are gracious hosts, and it has often been a surprise to easterners to meet with hospitality so royal in its expression. One result of this reception has been to give Santa Fe a large part in the politics of the Territory. Some of the great statecraft strokes of the last two decades there were made by women in Santa Fe.

FREE FOR AMERICAN SHIPPING.

A general movement throughout the United States is on foot for the purpose of impressing the government with the necessity of granting American vessels the right to travel the Panama Canal free of toll, provided this is possible under our treaties with Great Britain. For too long time now our American mercantile marine has been in a decadent condition. British, Scandinavian and German bottoms have been allowed to almost monopolize the ocean-carrying traffic of the world. The system of offering bounties to ship owners, together with the lower scale of wages paid to engineers and sailors has made the foreign competition too fierce for our native interests to fight for this supremacy.

If we can restore our ocean shipping to its ancient position—for once we led the world—the whole of America will be benefited by the change, but more particularly the State of California and most especially the City of Los Angeles. Our people have never spared any pains in the past to push any cause which they were assured would mean increased prosperity for their city or their State. With the vast and unprecedented opportunities that lie so immediately ahead of us, the inducement to back this appeal for a free passage through the canal for all American ships should rouse our leading men to prompt and strenuous action. We want to see our California ports the largest and busiest in the world, and to accomplish this end a general revival of American deep-sea shipping is essential.

We have seen the benefit of a protective tariff for our manufacturers, merchants and laborers—how it has turned our infant industries into amazing giants; the enforcing of tolls against the 92 per cent. of the world's ocean-carrying trade which represents foreign interests, and the free passage of the canal for our own little 8 per cent. would not at the start lower appreciably the receipts from these canal tolls; it would act as a protective tariff to aid in the restoration of our merchant marine.

Surely the cry of a canal free for American shipping should meet with the hearty support of all good Republicans. Our shipping interests, whether in coast or foreign trade, require building up today as badly as did our newly-born industries at the close of the Civil War. America, that has gone ahead of the world in every other field of endeavor, still lags hopelessly behind in the matter of ocean transportation. With a modern navy of the finest fighting machines, we have hardly enough transport vessels to keep them coaled and provisioned in case of war.

This stigma must be removed and in the building of the Panama Canal an efficient remedy may have presented itself. Do we want to see our own big ditch filled only with foreign commerce? Do we want a picture of Uncle Sam, like Macaulay's New Zealander, seated on the ramparts and watching the joining of two hemispheres by the fleets of every other nation but his own?

The Times has always championed the cause of an American merchant marine to be the equal of any afloat. We helped to fight the battle for San Pedro Harbor. And we will continue with "damnable iteration" if necessary—to hammer away at the object we have set our hearts on achieving; namely, the establishment of our finest ports in the world along our southwest coast and the filling of these ports with the argosies of the nations, and to see the chief of those argosies flying the Stars and Stripes and manned and owned by American sailors and American merchants.

SMOKELESS CITY.

Utah always did lead in the matter of virtue except in the olden days when incense domestic felicity was not only tolerated, but encouraged, with the prophet and his nineteen wives in the vanguard of righteousness and hostility to race enmities.

Salt Lake City is now not only "dry," but smokeless. When the bell on the temple strikes midnight on Saturday not merely the saloons but the cigar stands must close with a bang, not to be opened until the dawn stars on Monday shall have paled in the rays of the rising sun. This law applies to those who vend the fragrant weed anywhere or in any form, not only in the temples devoted exclusively to the worship of the goddess Nicotine, but in cigar stands in drug stores and hotels.

If a party of pious gentlemen are engaged in a private room attending upon the vicissitudes of the great American game and a double jack pot is in the center of the table and one of the players has risked his chips on a bob-tailed fish and his courage is rewarded one minute after 12 by drawing to his lounge and want successfully, he must throw up his hand or put it in a safe deposit box until Monday morning or incur the risk of missing divine service on the Sabbath by being incarcerated in a dungeon cell.

The action of the Chief of Police in this behalf will, however, be contested in the courts. The law reads the sale of all articles not absolutely necessary to the welfare of the public is prohibited from midnight on Saturday to sunrise on Monday, and is not a Partaga, a vomito furio or a cigarette absolutely necessary to the welfare of the average citizen? Sure.

STEALING AGAIN.

Billy Boy has been plagiarizing again. As the old farmer said of the predatory neighbor's boy, "I can't keep the little cuss out of my apple orchard."

The cross of gold passage, which secured his nomination in 1896 from the hissing madness of the Chicago convention, was lifted bodily from a speech in the House of Representatives made by Congressman McCall of Massachusetts, and McCall stole it from Shakespeare, who placed it in the mouth of Jack Cade.

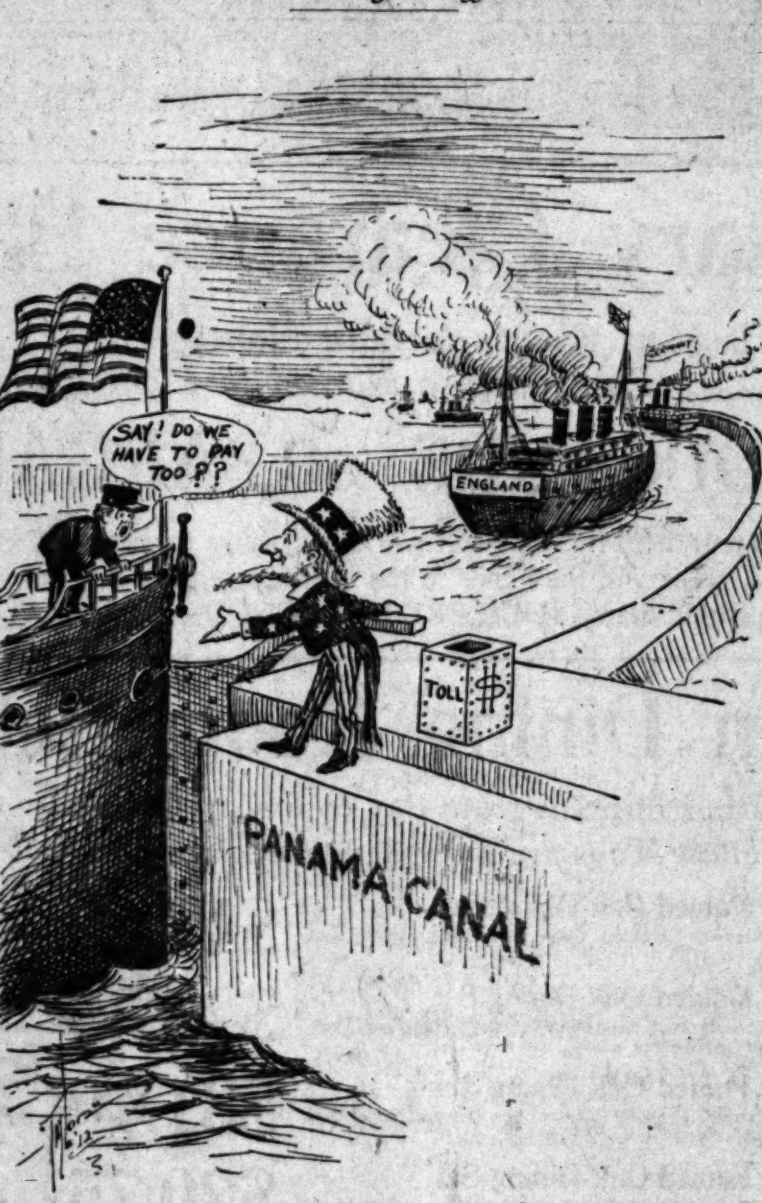

Cade promised his followers that when he should be King of the man's pot should hold a quart of beer. Bryan did not go so far as to promise that when he should be President every Democrat should have two offices, but he leaned that way.

If he had been elected he would have been in the same fix as a certain candidate for Sheriff of Trinity county, who had a Gordon setter of rare breed which was expected a week after election to lead to the canine family. The candidate promised 927 pups to the voters. He escaped condemnation by inducing a friend to steal the dog on election day and remove her to Sacramento.

Jack Cade did not succeed. He ran away and then died. Bryan did not—except for the Treaty—but he ran and died at the polls in 1896 and ran and died again in 1900 and ran and died once more in 1908.

And now his battered cadaver is being

A Family Affair.

BURDETTE AT THE BAT.

CXXI.

Not Lost, But Gone Behind.

Two men were sitting side by side in a trolley car in this city which, by the way, among other luxuries of progress, has now two kinds of cars—covered cars, with open ends, and the other kind, which run sixty-five miles an hour on the suburban lines at all times.

Both models are controlled by the same management, and the one can stand as fast as the other can run.

It is a pleasant study, this investigation into the natural causes of things. When under its present thorny form, was the invention of a man who had been evicted from a place where he had nothing to do and struck for a helper and shorter hours.

Columbus discovered America because he was in debt everywhere in Europe, and after he got started didn't dare turn back, because there was no place to go but land. And after he got here he didn't know he was in America. He thought he was in India. This is the origin of the theory that Columbus was an Englishman.

Politics was invented by a man who wanted everything he saw. But hated work. Lying was invented by the secretary of the man who invented politics, as a means of holding his job. Stealing was the invention that naturally followed the use of pocket springs. It was so easy to find a thing when there was some particular place to hide it. However, the art was reduced to its lowest form of imperfect deception by the sugar trust.

Similar Symptoms: Different Diseases.

But we left these two men on the car a mile past their corner. They were watching another man in a forward seat. He was evidently suffering from a malignant attack of St. Vitus dance. St. Vitus was the inventor of the "Turkey Trot."

The man's arms twitched and moved with abrupt violence in slapping gestures to different parts of his body. At times he stood up; again he sat down. He would start up with the evident intention of jumping off the car. Then he would sink back with the despairing "what-the-hell" expression of a man who mislaid his bonnet.

One of the two men watching him was a physician. He said, "I will go see if I can assist the man." He was a very young physician, practicing on his relatives. So he said "assist." Only physicians with practices ranging from \$7000 a year upward say "help." They don't "holer" it, you know. They just say it. The patient "holers" it.

But the elder man of the two—only writers who get a dollar a word say "older man of the two"—the elder man of the two was a gray-haired business man. "Sit still," he said to the medicine man, "that fellow hasn't got a fit. At least not the kind that you can help. He's lost his transfer."

The conductor came along. He did not look any worse. He looked dead as a nail. He paid no attention to the man's muscular exercises. He extended his hand with the air of a man who had all day to wait, and said "Fare, please."

When a conductor says "Fare" he is after the coin. When he adds "please" he is after the coin.

The man said, "I've misplaced my transfer. Any of these gentlemen know that I had one. I'll find it by the time you come back."

When a man has a pleasant trip down

town, without any untoward incident, he refers to his fellow passengers as a "lot of old mugs." When he loses his ticket he peeks of them, in their presence, as "gentlemen."

But the conductor, his hand remaining extended with increasing rigidity, only said, "Then I will return your 5 cents."

The Sequence.

The man after a few—very few—words of brief expostulation, paid his nickel. Two blocks further on he got off. He stood on the corner, still doing his transfer calisthenics. The car started. Suddenly the man drew a small, irregularly-shaped wad of blue from his fob-pocket. He unrolled it, waved it in the air, shouted at the top of his lungs and started in pursuit of the car.

The conductor, standing in a graceful attitude on the rear platform, watched the sprinter with growing interest. When the man, growing weary with his too sudden burst of speed at the start showed signs of stopping, the conductor's face beamed encouragement and he reached for the bell cord as one who would stop the car. Then as the man, with hopes reinvigorated, made a fresh start, the conductor changed his mind, folded his arms and, gazing upward at the cloudless sky of opaline beauty, pondered upon the glorious climate of California. Thus, with the engaging arts of the conductor, he lured the panting man onward for a block and a half.

As the pursuer finally stopped he was so far away and so completely out of breath that he could not hear what he said, but the conductor told us that it was probably the same old thing. So I suppose there is a regular high church ritual for such occasions as inevitable and useless as the "obey" in the marriage service, which has a strong three-strand string through the "o," the other end of which is attached to the bride's little finger, which, like that of Reboham, is thicker than any man's loins.

What had happened to the man? He had just found his transfer. And he was running 50 cents' worth and spending a dollar's worth of time to get his nickel back.

What the Record Shows.

In the Great Religious Daily of Southern California, commonly known among the millions of its readers who love it and sustain it and shape their daily lives by it, as the Los Angeles Times, within the past ten days have appeared five veracious accounts of the sudden and unaccountable loss of most valuable treasures by some of our best citizens.

The losing is done easily, gracefully, naturally; all the incidents preceding and immediately following the loss are related in calm and orderly narrative, proving the incontestable truth of the statement of treasure, time and place of loss.

The discovery of the bereavement is attended with the usual hysterical perturbation and successive paroxysms of hope and despair, fierce ebullition and dreadful calm. The recovery of the lost article is commonplace beyond all description. The lost trousers are picked up in the alley, having blown out of the hall-room window. The stolen watch is found by following the clue given by the pawn ticket which the man in his calmer moments discovers in his inside pocket when his confused memory becomes more normal. The handbag full of diamonds and rubies and turquoise and eggs, the woman finds hanging in her other hand, in which she declares she never carries that bag. The London umbrella, correctly rolled by a clerk in the "by-appearance" to his Majesty the King shop, which has never since been opened by the reverent owner, is found in his club, checked with his raincoat. The lost dog comes home of his own accord, bearing the unhealed wounds of honorable battle all over his back and the tooth-holes indicating the superior weight of guidance carried by the other dog, and giving excellent reason for the prolonged absence of the returned prodigal. Nothing is ever really lost. It is only misplaced.

Streaks of Wit.

Why Two Tons?

[Detroit Free Press:] "George, let us give each other useful presents this year!" "Fine idea. What do you want?"

"I thought a new broadcloth suit would be very useful."

"Splendid. And what do you intend to give me?"

"Well, George, I've thought it all over, and decided that two tons of coal would help you more than anything else."

One Crown Enough.

[National Monthly:] "Wouldn't you like to go to heaven, Willie, and wear a nice gold crown?" asked the Sunday-school teacher.

"Not if a dentist is going to put it on," said Willie.

History Completed.

[Harper's Weekly:] "Well, I declare," said Lot, as he realized that his wife had been turned into a pillar of salt. "That's a strange phenomenon. I always thought the old lady was largely pepper."

Whereupon he dug a salt cellar and laid her gently away therein before moving on. Not Useful as Home.

[Punch:] "Now, Guy, tell us about the school. Is everything all right?"

"Oh, yes, mother—except one thing." "My darling! What is it?"

"Well, I wish you hadn't got that French nurse to teach us the right pronunciation; it makes the other fellows laugh so."

Has the Habit.

[Boston Transcript:] He: The bridegroom always looks like a fool during the ceremony.

She: How about the bride?

He: Oh, the bride, being a woman, is able to dissemble.

Once Is Enough.

[Chicago Tribune:] Wait Sautter: Why do you keep on apologizing that singer? She refuses to give any encore.

O. Hezell Wright: That's why I'm applauding her!

Needs a Short Circuit.

[Philadelphia Times:] Nellie: Is that flow of yours ever going to get up the courage to propose?

Belle: Guess not. He's like an hour-glass.

Nellie: An hour-glass?

Belle: Yes, the more time he gets, the less sand he has.

Filling Her Out.

[Princeton Tiger:] He (innocently): Golf certainly keeps you in good shape.

She (suspiciously): Literally speaking?

He (winking up): No; figuratively.

Ample Supplied.

[T.H. Hits:] Father: Well, my son, you have now got your commission and are prepared to join your regiment and fight for the glory of our country. Do you think you have the necessary qualifications?

Young Officer: Well, I should think so. I am the champion long-distance runner of our club.

Pen Points: By the S.

The astronomers have so far failed to tell us whether the canals on Mars are real.

And the old-fashioned girl who was worsted mutton on cardboard has become of her?

If concrete furniture is to be the thing, it will be hard to differentiate between a couch and a parlor sofa.

"The Dangers of the Dam" is the title of an editorial in an exchange. It doesn't doubt use the three-em dash.

Perhaps if W. Morgan Shuster had not parted his name in the middle Russia would not have been so hard on him.

With a number of distinguished persons falling off the water wagon the Dryness is beginning to take on form and substance.

Isn't it about time for George Fred Williams to announce the birth of a new party? By the way, what has become of George Fred?

A telegram from Teheran says: "The coup d'etat of the Medias was dissolved by the regent's firman." Was it so that?

The expensive New Theater, now worth a million dollars, is about to be sold. But the moving-picture places are not doing on.

A shipload of potatoes from Scotland just reached New York. Thoughtful people of Ulster are regarding their countrymen with some suspicion.

The pure-flood bureau has informed a pitiful public what mine pits are for, but it balks at performing a similar feat for sausage.

It is announced that the cathedral of John the Divine in New York will be completed for seventy-five years. It will be a government job.

In order to relieve the world of the while the other powers are running the banks are some spots in the world's hellish against home rule.

At last accounts the Woodrow Presidential boom was flying high, white swall with bare poles, with the less operator signaling "C.Q.D."

It seems that the beef industry is much water in their proposed trust. The bankers who were expected to lead the money were afraid of drowning.

With the thermometer in the mouth of the Los Angeles, let us see what there are some spots in the world's hellish country that Medicine Hat cannot reach.

The latest feminine fancy is to have a garment made of the material of which bathrobes are manufactured, and the bathroom slipper will be a card.

"Conference Committee Finishes," so runs a local headline. It is a distinct advantage to the party who have heretofore been completely stand on a stool.

With the spasm of progressive journalism, the sober good sense of the press is rapidly rallying to the support of President Taft. The people are coming down to the brass tacks of the situation.

It now seems that the cotton of Antonio has so much in common with the Spanish-American War. The cotton is rapidly rallying to the support of the fish fleet by the Italians in the Gulf.

A new asteroid is sailing through earth just now, say the astronomers. It is anything save the moon. It is very long and sharp as a needle. It occasionally even gives the moon a run for its money.

Women who have the largest bosoms have not yet been able to learn that Supreme Court Justice New York has decided against the worn masculine argument that the bosoms of insanity.

The eastern Governors have agreed to visit the Pacific Coast States in this section. If they come they will be a lot of Lieutenant-Governors. California climate is serious chief executives.

The experiment of raising cotton will be tried in Southern California. It is believed that the region is well adapted to the climatic conditions. The cotton is rapidly rallying to the support of the fish fleet by the Italians in the Gulf.

Was it the soul of yourself that was naked and starved and cold? And could I see it without a shudder? Because of the deeper verities of life. That materially speaks to a friend.

Perchance I spoke to a friend who was naked and starved and cold? And could I see it without a shudder? Because of the deeper verities of life. That materially speaks to a friend.

And your face was like in an aimless look. Some of these mortals look at us: "You are a fool," they say. "You are a fool," they say. "You are a fool," they say.

Perchance my gaze turned to a friend who was naked and starved and cold? And could I see it without a shudder? Because of the deeper verities of life. That materially speaks to a friend.

ASIS IN DESERT FOR BOOKMAKER?

MEN AND WOMEN CHARGED WITH PLAYING THE RACES.

Alleged Handbook Raided in Store of Clothing Merchant—Police Say They Found Incriminating Evidence—Entries and Odds Taken from Northern Paper.

Hundreds of men and women of all ages and conditions daily play the races in local bookshops, according to information secured in a raid at noon yesterday on an alleged handbook conducted by Nicola Rugio at No. 421 South Spring street.

The information alleges that odds are laid on quotations printed in the pink supplement of a paper shipped into Los Angeles from the North, and all bets are paid in accordance with results of races, published in the next day's edition.

Rugio lives at No. 2312 Main street, Santa Monica. It is alleged he used the safe of Isadore Cohn, proprietor of a tailoring establishment, at the address mentioned, for his books and accounts. When taken into court he was accompanied by the tailor and brother, Herman Cohn, who said they would furnish the \$1000 bail.

The raid on the alleged handbook was made upon a search warrant issued to Plainclothesman Kennedy of the Purity Squad by Police Judge Williams of the University court, based on an affidavit made by Deputy District Attorney Doran. The man who collected the alleged evidence for the police said:

"I've been playing here more than a week. I have cashed two bets, am a little to the bad. I always played the Juarez races. I never came in here but what I met women who were laying odds. The women did business in the rear of the store, while we men bet our money right here at the desk."

While the raid was in progress a woman drove up in a taxicab. Before she could alight she was told the place had been raided and she drove away quickly.

When Rugio and the Cohn brothers left the store for the police station, three men stood near the entrance. They were pointed out as players. Two of them carried pink supplements in their hands.

"Nine men out of ten whom you see with the pinks of that northern paper play the races," whispered the man who caused the raid.

While Officer Kennedy was examining the books he found in the safe, a man walked up and started to ask a question about the races, when a man in the crowd said to him:

"Shut up, don't you know this place has been pinched?"

The arrest was made after an alleged bet had been made with marked money, and in the presence of three other persons besides Rugio and the man working for the detective.

TO FIGHT FOREST FIRES.

Co-operation of Lumber Interests Asked by Government Men—Three New Supervisors.

Supervisor Charlton of the Angeles Forest, will go to San Francisco Saturday to attend a conference of forest supervisors and their deputies all next week. The conference will be with the men behind the lumber interests in the national forest reserve, with a view to securing their co-operation in the work of fighting forest fires.

Beginning yesterday, the new arrangement for the care of the forest reserves of the State went into effect. Supervisor Charlton will be deprived of the services of E. B. Long, who has been transferred to the Shasta Reserve, but there will be three new men on duty in the Angeles Reserve, O. P. Brownlow, at Pasadena; J. C.

WOMEN, AVOID OPERATIONS

Many Unsuccessful—And Worse Suffering Often Follows. Mrs. Rock's Case A Warning.

The following letter from Mrs. Orville Rock will show how unwise it is for women to submit to the dangers of a surgical operation when often it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for several months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. Orville Rock, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has restored the health of thousands of suffering women. Why don't you try it?

Clearance of Made-to-Order SUITS

\$30 and \$35 Serges Cheviots, Worsteds

Nowhere in Los Angeles can you find such remarkable values in men's clothing as right here at the Scotch Tailors during this clearance of \$30 and \$40 suitings. Every style and every fabric is here from which to choose and the same faultless workmanship and perfect fit shall go into every garment. This clearance offers you, well dressed man, an unprecedented chance to save. Such opportunities can't last long.

FOR YOUR HAIR

Here are Facts We Want You to Prove at Our Risk.

When the roots of the hair are entirely dead and the pores of the scalp are glazed over, we do not believe that anything can restore hair growth. Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed and will not gum nor permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid us for it.

We lend our indorsement to Rexall "93" Hair Tonic and sell it on this guarantee, because we believe it is the best hair tonic ever discovered. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at our stores—The Rexall Drug Co., Inc., Los Angeles, San Francisco, Oakland, Sacramento, Portland, Seattle and Spokane.

It would prove fatal. Almost surely it would bring chaos.

But no matter which way it goes, limited monarchy or republic, the Manchus are done, the iron hand of the Chinese throat has been stricken away.

Some Curious Kansas Ordinances. [Kansas City Journal.] An examination of the law books shows that Kansas laws are about as many as blue laws in Boston, but in the early days of this republic. Here are some of the crimes and penalties affixed.

To fail to clean a henhouse once every twenty-four hours, \$25 fine.

To sell a dime novel with an account of crime, \$100.

To keep same places, \$15.

To talk back to a policeman, \$100.

To "sic" one dog on another, \$100.

To hitch a horse to a wagon, \$100.

To throw rice at newly-wed couple, \$100.

To whistle on a fence, \$25.

To spit a wad of gum in a street, \$100.

To have a barbed wire fence around your premises, \$25.

To carry a stone out of another man's yard, \$50.

To throw a banana peeling into Cow Creek, \$100.

To watch a corn doctor work his jaw on the street, \$50.

And there are others.

"My," exclaimed the visitor, as she took small Margie on her knee, "but that is a solid little miss."

"Why," queried Margie, "I'd you considering the conditions of the pa-think I am."

northeastern part of Arizona. The matter is being investigated by Territorial Health Officer Godfrey, who is apprehensive of serious results, owing to the unsanitary habits of the Indians. A similar epidemic was known near Tuba last summer, resulting in the death of fairly children.

BROKEN ARM NEGLECTED.

Russian Laborer, Arrested for Intoxication, Had Wounded About Country, Seeking No Aid.

For eight months John Pedra, a Russian laborer, has been wandering around the country with a broken right arm, not knowing what was the matter with it.

He was arrested yesterday afternoon for intoxication. When taken to jail it was discovered that something was wrong with the man's arm. He was taken to the Receiving Hospital where the physician learned that the bone between the shoulder and the elbow had just broken to knill, but not in a perfect manner.

The man will be sent to the County Hospital where the arm will be broken and reset. Pedra said his arm was broken by a cake of ice falling on it. In an ice house at Bakendfield last May.

Merited.

BIG REWARD FOR TWO DETECTIVES.

THOUSANDS IN PROSPECT FOR CATCHING CRIMINALS.

Two Chicago Officials Arrive to Take Slayers of Woman Into Custody and Praise Work of Los Angeles Men Who Captured Desperadoes—Papers Give Credit.

Detectives Monaghan and O'Keefe of the Chicago police arrived in this city yesterday morning to take charge of the man and woman who are being sought by the Chicago police, known as "Towhead." They are wanted in answer to a charge of murder, the killing of Mrs. Hattie Kaufman on the night of December 2, last.

The men were arrested here about two weeks ago by Capt. Plummer and Detective Boyd. The Chicago detectives stopped at Sacramento, where they secured requisition papers. They also brought a check for \$100, the reward offered by the municipality of Chicago for the arrest of Stacy and Rabineau. This money goes to Detective Plummer and Boyd. Citizens of Chicago offered \$400 reward for the arrest of the two men. Whether these citizens will pay, the visiting officials said they do not know. Plummer and Boyd are not known in Chicago, and carried with them heavy overcoats.

"We won't need those here," laughingly said O'Keefe when he went out for a walk. "A linen duster would be better."

The police got a line on the whereabouts of the fugitives when one of them wrote a letter home after they came to this city. Both are married. Rabineau's child died after he left Chicago. He read an account of it being turned to death in a gasoline explosion.

William R. Channell and Fred Bonahan are the other men associated with Stacy and Rabineau in the holding up of Mrs. Kaufman. Rabineau, after his arrest, confessed he shot the woman. While in a comparative moment following the knocking down of Kaufman he accidentally discharged his revolver. Mrs. Kaufman died instantly.

CHINESE MUST SERVE TIME.

Convicted of Smuggling, He Fails to Make Appeal Within Statutory Limit and Now Has No Recourse.

A lesson for attorneys is involved in the story of Wong Wing Hing, the Anaheim Chinese merchant, who is again in the County Jail, facing a two-year sentence to McNair's Island, on a charge of smuggling.

Wong Wing Hing was released on a bond of \$4000, furnished by the Six Companies of San Francisco on the 5th inst., after he had been in jail several months following his conviction by a Federal jury. No action was expected that the Chinese was within at liberty than six months within which he must perfect his appeal to the Circuit Court. He expected that the Chinese was again arrested, with no recourse now but to serve his time.

It was expected that the Chinese would be taken north this week, as there is now no escape from the sentence of the court.

DOESN'T SECURE BOND.

Mrs. Etta M. Thompson spent all of yesterday trying to secure bondmen to qualify in \$20,000 for the release of her husband, Fred H. Thompson, the convicted attorney, from the County Jail. She was unsuccessful, an account of the ruling of Asst. U.S. Dist. Atty. Regan and Cryer, that the three persons offered as sureties were not qualified to sign the bond. The proposed bondsmen are William E. Hutchinson, No. 143 1/2 Compton street; Mrs. Rebecca E. Malone, No. 111 Raymond avenue, Santa Monica; and Eugene R. Plummer, No. 1202 Harvard boulevard, Mrs. Malone is Thompson's sister, and was on his bond for \$8000 pending trial.

PLEA FOR THE ARROYO.

Woman Would Have Great Natural Parkway Admitted to the City Before It Is Too Late.

A strong plea to have the Arroyo Seco admitted to the city for a continuous parkway from the mountains to Elysian Park was made by Mrs. A. S. Lobinger last night before the Evening City Club at its dinner. She explained that the city now extends to Avenue 17, leaving a choice mile of the Arroyo in the county. This link is indispensable to complete the park system planned for the city. Those persons living within the proposed territory favor the plan of admission. Mrs. Lobinger said. There is no half-way method of handling the Arroyo, she declared, as it will either be a superb park or a cheap industrial section, and its beautiful trees will be sacrificed to commerce immediately if the property is not secured for the city.

The value of the actual parking area to be taken up by the city was estimated at \$20,000 three years ago. Mrs. Lobinger said.

BOOST AND ADVERTISE.

The Value of Publicity Is Expounded at Luncheon at the Angeles—For Convention in Frisco.

"Boost Los Angeles and let the world know what Southern California is doing."

"Be honest in your advertising and drive the fake advertiser out of business."

"Tell the truth and make the truth worth more than all the false representation that was ever written."

"Let the world know the value of your wares and sell them for what they are worth."

Fifty advertising men and advertisers of Los Angeles sat down to a luncheon in the Angeles grill room yesterday and perfected an organization of "ad" men which is expected to be the largest club of its kind in the West, and the above are some of the sentiments expressed there.

S. W. Botsford was elected president. Addresses were delivered by advertising men from San Francisco and Seattle, and a process picture for the organization.

Louis Honig of San Francisco declared Los Angeles one of the greatest advertising centers in the world, and said local advertising and business men should bestir themselves and let the world know that a great country and a magnificent climate is hereabouts.

C. W. Hibbard, temporary chairman, declared for advertising men of Los Angeles overlooked a golden opportunity a year ago by not having a delegation at the National Advertising Men's Association convention in Baltimore.

You people should get together and get the national advertising men to come to Los Angeles in 1913," said the speaker. "You should do this because you know that for every 100 delegates there are 1000 San Franciscans, 401 will visit your wonderful and beautiful city."

HIGHER THAN BEFORE.

Delegates and visitors to convention on the Pacific Coast will pay \$5 more this year than they have in previous years for fares to here, but the regular tourist traffic will be handled on the old basis.

The Union-Pacific Railroad announced the passenger rates yesterday which will be placed in effect this summer. The rates for the Pacific coast will be higher than those for the Atlantic coast, which has heretofore been \$50 round trip from Missouri River points to all coast points to \$55. The rate for the Pacific coast is \$60 round trip from Missouri River points to all coast points to \$65. The rate is effective April 27 and continues until conventions are over.

The summer tourist rate of \$60 round trip is in effect October 1 to September 3, good until October 31. Shasta Route tickets are \$18 higher. The Union-Pacific Railroad expects a large advertising campaign and expects the largest business to the coast in the history of the traffic.

NEW TORPEDO GUN.

An American's Invention Will Revolutionize the Construction of Warships of Every Nation.

[Chicago Tribune.] A tremendous revolution in naval architecture, more far-reaching in its influence than the development of dreadnoughts as a result of the Russo-Japanese War is impending. The cause is an invention made by Commander Cleveland Davis of the United States Navy.

This invention, which has undergone thorough tests, will require the armoring of ships of war below as well as above the water line. It will mean that the contest between gun and armor, which heretofore has been restricted to the surface of a vessel visible to the eye, will be extended to that part which hitherto has enjoyed protection through submergence in the sea.

The thin plates of steel below water must be replaced by thick armor. The compartments into which ships have been divided and which have provided protection through ability to confine the intruding flood into segregated sections, must either give way to a new system or be strengthened so as to resist the new weapon which the invention of Commander Davis has devised.

The situation affects not alone the fleet of the United States, but the every great power in the world. In battleships and smaller craft laid down hereafter the constructors must plan for under as well as over water protection. They will have to take into account the greater weight below the water line, which naturally will affect the stability of the ship. They will have to rearrange the location of the machinery and the location of the gun turrets. They will have to take into account the new details of vital importance to a man-of-war.

The Davis invention is a torpedo gun made of an alloyed metal of enormous tensile strength, so that it can be light enough to be actually carried in an ordinary torpedo. The torpedo is set in motion in the usual way. When its nose strikes the target the gun is automatically fired. A high explosive shell leaves the gun with great velocity and enters the ship. A time fuse causes detonation, and the explosion is calculated to wreck the compartment and kill every one in it. If the explosion occurs under the machinery the ship will be put out of action; if under a magazine it will be destroyed.

Under present conditions a torpedo is fired with a gun cotton charge, which is exploded upon contact with the target. The most gun cotton torpedo cable is to blow a hole in the outside of the ship and let in water. The development of protection against this form of attack has been the division of the hull into numerous watertight compartments, so as to localize the injury.

Manifestly, with this torpedo, there can be no direct attack upon the vitals of a ship; that is, upon the machinery, boiler, magazine, or steering gear. But the torpedo gun, with its muzzle discharges a high explosive shell with such velocity that it penetrates bulkheads and coal bunkers and is so fused as to detonate where it will do the most damage. The effect is disastrous. Not only does the shell open up to the sea each compartment it traverses, but it may explode the magazine or destroy boilers, machinery, and steering gear. There can be no escape for the personnel in the compartments attacked.

The United States, of course, will have the initial advantage, since one of its officers has put in his hands the gun which marks such a long stride in naval warfare.

The torpedo gun is not the only in-

Housework Drudgery

Housework is drudgery for the weak woman. She broods, dusts and scrubs, or is on her feet all day attending to the many details of the household. Her back aches, her temples throb, her nerves quiver under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. Dr. Pierce's Favorite Prescription, women impatiently by Dr. Pierce's Favorite Prescription.

It Makes Weak Women Strong and Sick Women Well.

This prescription removes the cause of women's weakness, restores the system and cures these ailments: nervousness, headache, dizziness, palpitation, irregular menstruation, etc. It is a powerful purgative, and cures these ailments. The Times

LOS ANGELES

WEDNESDAY MORNING, JANUARY 17, 1912.

PRICE: Single Copies, on Streets and Trolleys, 5 Cents. For Month, For Copy, Delivered, 15 Cents.

Santa Fe de-Luxe

Leaves Los Angeles 6:05 p.m. Tuesdays during January, February, March and April. Saves a business day to Kansas City, Chicago and New York.

EXTRA FINE—EXTRA FAST—EXTRA FARE

We know the service on this train is worth \$25, which is the extra fare charged.

Comfort plus luxury and exclusiveness

This of course is in addition to our regular daily service on the California Limited—exclusively first-class, on which no extra fare is charged.

E. W. McGEE, General Agent, 334 South Spring St., Telephone A5224; Main 738; Broadway 1558.

Seeing California from the Sea on the voyage to San Francisco or San Diego is a unique experience. The miles of rugged, picturesque shore-line is a revelation to the land-traveler.

The Yale and Harvard are magnificent hotels on the water, perfectly equipped for your comfort and safety.

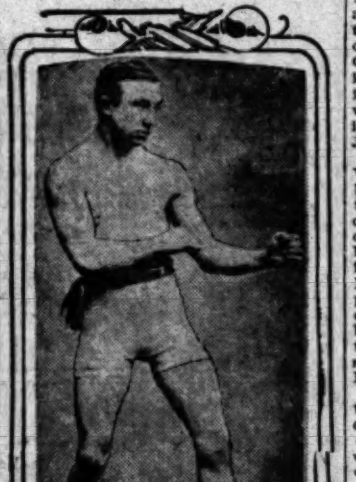

ROUND TRIP RATES. For Tickets, Folders, etc. apply Pacific Navigation Co. 601 South Spring Street. Phone F2067 Broadway 2588

CONLEY AND COULON TO BOX FOR BANTAM BELT.

McCarey Announces What Promises to Be One of the Best Bouts of Year for February 3—Boys to Make One Hundred and Sixteen Pounds on Day of Battle. Welsh-Waugh Contest Comes Saturday.

BY GREY OLIVER.

JOHNNY COULON and Frankie Conley, Vernon arena, February 3, 116 pounds three and one-half hours before the fight, bantam championship.

Johnny Coulon, who has been matched to fight Frankie Conley here for the bantam-weight title.

Everyone knows what Coulon can do, for he is the bantam champion. He came here several years ago, and beat the life out of McCarey's white hope bantam, Young Terry McGovern.

Coulon is to fight Forbes on January 23 and expects to leave for the Coast the next day, so he will be early enough to get himself accustomed to the climate. With the bantam championship to be decided February 3 and the featherweight title at stake here February 22, there will be sufficient doing here in the fight line, this month to keep the entire country awake. Can you imagine any other two cities in the country having two championship battles in one month? Gibbons may be seen here later on in the year, and the only thing that is lacking, apparently, is a heavy-weight battle, and of course that is impossible with no one to fight Jack Johnson.

The prelim card for the Welsh-Waugh battle has been torn to pieces by the enforced retirement of Battling Frankie Gage, who is down and out with a broken left arm. This accident happened Sunday while he was boxing with Freddie Corbett, Frankie's left arm striking Corbett's elbow. Freddie Taylor will be stuck in, in place of Gage, and the card will go on, just the same as usual. It will be robbed of some of its interest, for the local bugs were counting on a slashing battle between Gage and Delton.

Taylor should make a good substitute, for he is said to be a boy of considerable class, and offered to take on any lightweight here when he came down from San Francisco several months ago.

The big card at the Vernon arena on Saturday promises to be a hummer, for the bouts should be interesting from start to finish. The main event, between Welsh and Waugh, who is called the Texas Wildcat, will probably show whether or not Welsh has gone back, as some sports think he has. His showing with Ritchie made some of the boys think Freddie is on the slide, but his boxing with Rivers while Joe was training with Conley, indicated that Freddie is a long ways ahead of Rivers in the tricks of the game. If Welsh has gone back, I do not know anything about fighters. Which is doubtless true.

Waugh intends to tear in and slam Welsh from the start, and therein is his only chance, for there are very few puss that Welsh cannot outpoint. Bob is training faithfully and should not make any excuses for lack of training.

The significance of the Coulon-Conley battle can be understood when it is known that Coulon beat Conley out of the title some months ago at New Orleans. Now they are to go for it again and the local bugs could not have a more promising battle offered them. Conley thinks he can beat Coulon easily, and there is no denying the fact that Frankie is one of the toughest nuts that ever fought in a ring.

Manager McCarey has the Rivers-Jack White fight in sight for March 17, but has done nothing toward securing it yet. Rivers is growing all the time, and it might be possible that he could make 124 pounds at 10 o'clock on St. Patrick's Day. White has agreed to make that weight.

Manager Levy, for Rivers, stated yesterday that he would weigh Rivers today, and that if he decided that Joe could make the weight in two months, he would sign articles, but he would have to think the matter over for a day or so.

The total of 18 for the 18 holes is a record for the course and is recognized as being an extremely difficult bogey, which the club's professional, Rigby, has so far not attained. The aggressive newness of the course adds to its difficulties, so that the score taken on particular glory.

The last four holes, where the greatest brilliance of play took place, are the 16th, 17th, 18th and 19th, respectively, par in each case being 4. The player seemed absolutely inspired, making his drives with a clean, unerring swing and complete follow through, beautiful to witness.

CHINAMAN TO FLY FOR NEW-BORN REPUBLIC.

Sets New Mark for Course.

H. M. H. Woodcock, who has achieved a record on the San Gabriel Country Club golf links.

NEW MARK IS MADE ON SAN GABRIEL'S LINKS.

BY ALMA WHITAKER.

THE captain of the San Gabriel golf team, H. M. H. Woodcock, has made a record for the new course and tied the previous best record for the old nine holes on the San Gabriel links, with scores of 78 and 33, respectively.

In a foursome comprised of Mr. Woodcock and A. T. Jorgensen, against Conde Jones and Mr. Keenut of Santa Barbara, some splendid golf was witnessed, which the club's professional, Rigby, has so far not attained. The aggressive newness of the course adds to its difficulties, so that the score taken on particular glory.

The last four holes, where the greatest brilliance of play took place, are the 16th, 17th, 18th and 19th, respectively, par in each case being 4. The player seemed absolutely inspired, making his drives with a clean, unerring swing and complete follow through, beautiful to witness.

POETS WIN FIRST IN CHAMP SERIES.

Southern Basketball Title in the Balance.

Two More Games Will Tell the Story.

Cards Make Game Fight but Lose Out.

WHITTIER, 21; U.S.C. 28.

WHITTIER, Jan. 16.—[Exclusive Dispatch.] There was a battle royal on the Quaker courts tonight when the Poets' fighting basketball team defeated the crack quintette from the University of Southern California, in one of the greatest games of the season. This was the first game of the three-game series between the two institutions and the result of the series means the championship of Southern California. The men played tonight as though the weight of the entire world rested on the result of their efforts. The final score at the close of the battle was: Whittier, 21; U.S.C. 28.

The struggle in the first half was thrilling, the scoring coming first for one side, then for the other. The half ended with the shot showing Whittier with a total of 16 to the university's 13.

After the first half it was thought the Cards would have a chance to win out, as Record and Taylor had been doing some great work for the university, but at this point the beans were spilled by one Mr. Lester, who was sent in for Tabor of Whittier at forward. He heaved four baskets in a row and, with the work of Oliver at center, was able to keep ahead of the climbing Cards, who were never far behind at any time.

The return match, which will be played off on the U.S.C. court next Saturday night, promises to be a hummer. Last season the Cards took the Whittier measure for the series and the title, and the Poets have been looking for a chance to get even. On the other hand, U.S.C. is only waiting for the return game on their own courts, as last season they were defeated in the first game by the Quakers and then came back and won the next two in a row. The line-up:

U.S.C. Whittier. Record forward Critch. R. Hall center Tabor-Lester. Taylor center Oliver. Livernash guard Donahue. W. Hall-Caster Sharpless.

ANGEL BASKET SQUAD BEATS OXY HEAVERS.

The basketball team of the Los Angeles High School defeated the Oxy Tiger team last night on the latter's court by the score of 21 to 18 in one of the fastest games ever played on the Presbyterian floor. The score was as close during the entire game as it was at the finish and had the spectators on their feet most of the time.

Drury Wiggins was tried out for the first time at center and made good considering the fact that this was his first appearance. Team work was the name for the Blue and White men. The forwards, Kidder and Horrie, were all over the court, while Lloyd Nelson at guard kept the Oxy men out of the basket at fatal times.

The line-up: Occidental forward L.A.H.S. Kirkpatrick forward Horrie. Hunter center Davies. Wieman center Davies. Stearns guard Stretch. Johnson Nelson.

NELSON, PLATT SHOW IN S.C.A.C. TRY-OUTS.

After the first try-out for wrestling, who will compete in the tournament January 23, under the auspices of Billy Elmer of the Southern California A.C., but two stood the gaff and are entered in the competition. The first try-out was held yesterday.

The survivors are Jess Homer Nelson, a Norwegian, and B. H. Platt, who claims the 135-pound championship of Oregon. Nelson is a middleweight with considerable experience at the mat game.

With Neumann and Smith there are now four who have shown sufficient speed and cleverness to qualify for the tournament. Another try-out will be held at the S.C.A.C. tonight at 8 p.m.

The wrestling show is being run under the auspices of Elmer's Physical Culture Club, which recently consolidated with the S.C.A.C., and is now a department of that body devoted to gymnastic training. The S.C.A.C. belongs to the A.A.U., but Elmer's club is independent and can run off shows with both professional and amateur entered.

While physical training of the Knickerbocker A.C. of New York, Elmer had charge of the training of such wrestlers as Billy Muldoon. He promises the fans a good show January 30.

New Contracts Signed.

Hap Hogan of the Vernon team yesterday received the signed contracts of Burrell, Kane and Brashar. All told, he has about fourteen names signed.

ZBYSKO WINS IN STRAIGHT FALLS.

[A. P. NIGHT NEWS REPORT.] MINNEAPOLIS, Jan. 16.—Stanislaus Zbysko defeated Henry Ordemann of Minneapolis, in straight falls here tonight, the first being won in twenty-five minutes, twenty-five seconds, and the second in forty-eight seconds. Both falls were won on armholds and reverse Nelsons.

No Reasonable Offer Refused The Maryland and Virginia Art Rooms

No. 627 South Hill St.

TONS OF ROCK FOR NEW ROAD.

Ocean to Ocean Boulevard by Banning Way.

Decomposed Granite Close to the Short Route.

Desert Expert Tells What It Will Mean to Build.

BY CHARLES E. BIGELOW.

In blocking out a transportation line of any character there are two principal considerations—the population to be served and the physical characteristics of the country. When building a highway through a desert region the questions of road building material, grades, proximity to railroads, distances between irrigated sections and last, but not least, water in the desert stretches must be considered.

The route covered by the Stoddard-Benton pathfinder passes all these. For nearly four years I have driven into and out of the Imperial Valley, using first one and then another route. I unhesitatingly affirm that there is but one natural outlet, the San Geronimo Pass. The question of grade can be dismissed in a single sentence. This means 266 feet elevation at the summit, Beaumont, about ninety miles east of Los Angeles, and 208 feet below sea level, sixty-five miles east of Beaumont.

From Banning to Mecca the road is well known, particularly because of the White Water River, and it certainly deserves all the abuse that has been heaped upon the stream. More particularly because the expenditure of a small sum on a side cut will take the road above high water mark and for all time remove all menace from the desert river.

Money is now being raised and within the next thirty days this work will be completed. The almost equally feared drift sands of India have been merely harpies during the past two years. Brushing of course is at best but temporary work. Gravel beds well, but the price of decomposed granite road built by John Shaver, is of the utmost value as an object lesson. It packs well, does not cut from wagon traffic and reveals the action of auto tires.

TONS OF ROCK.

There is untold millions of tons of this rock available within almost a stone's throw of the worst stretches of the proposed highway. This gravel is designated to a steam shovel point. From India to Mecca the road passes through an irrigated section with fields of cotton and acres of alfalfa stretching between.

Now for the district between Mecca and Banning on the south side of the Salton River. Our mission with the Stoddard was not to travel the used trails, but rather to follow as closely as possible the route suggested by G. F. Park, one in almost an air line from Mecca to Banning, which strikes the Imperial Valley, which strikes a little over washes and boulders, but this route is not covered by the three cars in less than five hours. In other words, there is absolutely nothing to do to make a passable road.

For a permanent road there is simply no end to the material. Ages and ages of sea action was the mountain have for the greater part of the way prepared a macadam foundation, which the best efforts of road builders are as the Babylonian Temple of Diana to the mighty Himalayas. Just a word as to the materials. For rock crushers can be used to advantage, as the loose boulders strewn the proposed road, or immediately adjacent, are so far as we have ascertained them had close-grained granite and of perfect cleavage.

Within two weeks a fairly good road will be completed across this stretch, suitable to the Coachella and Imperial Valley people. The temporary road will be about seven miles longer than the permanent one, owing to detours made necessary by lack of available funds for the heavier work. The map in the Pink clearly shows the two roads.

HARD WORK.

Leaving Banning for Yuma the first twenty miles is good. Then comes the dirt sand dunes. About five miles of road must be built around the north-west end of these hills and a most careful study of air-currents and water

SOUTH COAST GOLF LEAGUE.

The Los Angeles Team, No. 2.

BY ALMA WHITAKER.

THE Los Angeles team is regarded as the strongest in the league this year, even its eight substitutes have to confess to nothing higher than a four handicap. It boasts two former distinguished champions and several championship runners-up. And every man on the team possesses cups and distinctions of some kind.

It consists of Norman Macbeth, captain; Judge William Frederickson, Frank H. Edwards, George H. Schneider, J. A. Jevns, Arthur Brady and Nat Wilshire.

The eight substitutes all have the same handicap, four strokes. They are L. T. Bradford, J. W. Wilson, Edward Tuttle, W. K. Walton, Charles E. Orr, Walter Corby, Everett Seaver and C. S. Browne.

Norman Macbeth is unquestionably the best player on the Coast, both as regards form, knowledge and ability. A former champion of India, and member of the royal and ancient club, St. Andrews, he has played with many of the world's famous players, including Harold H. Hilton, of whom he is a close friend, W. C. Fownes, Jr., the late Lieut. Tate, and has played up to the limit in the British amateur championship. He has been "wired up" in weighty British journals, and his style of play may be said to be above criticism.

But this style makes for difficulty with bad lies and he would not be nearly so effective on a soft course.

The enormous run he gets from his iron shots makes him very deadly in approaching over hard bumpy ground.

Frank Edwards is often called the luckiest player, because of the large number of iron shots he puts dead and the number of long putts he holes. But these are really the result of clean hitting and no backspin on a ball that is meant to run. His success with long putts is the reward of clean hitting and no backspin on a ball that is meant to run.

ARTHUR BRADY: Should, with a slight modification of his swing, become a very sound player. He makes too many preliminary swings and false starts at present, and his instinctive judgment and snap are

WELL, WOULDN'T THIS GET YOU? HERE IT IS, MY BIRTHDAY. I'M JUST A YERB OLD TODAY, AND THIRTY DOESN'T FEEL ANY DIFFERENT TO ME. HE IS GOING TO PUT ME THROUGH MY PAGES JUST THE SAME AS USUAL.

BY GOLLY, I'M GOING TO TAKE A DAY OFF - THIRTY INSLUMMER IS SITTIN' THERE, ASLEEP AS USUAL, COOKING UP SOME WAY TO DEAN ME IN THE LAST PICTURE I SET! - SO HERE'S WHERE I BERT IT!

I'VE STOOD FOR THAT GUY CROWNING ME WITH EVERYTHING FROM A BALL BAT TO A TELESCOPE, MAKING ME FALL OUT OF AIRSHIPS AND ENOUGH ELSE TO HAVE KILLED A THOUSAND MEN DURING THE LAST YERB - NOT TO MENTION MAKING ME SPEND ABOUT FIFTY MILLION DOLLARS - BUT I'M NOT GOING TO WORK ON MY FIRST BIRTHDAY, NOT ME!

A-AM! HERE'S THE BLACK BOTTLE THAT ALL OF MY NEW LUCK IS BREWED IN, DURN IT!!

HAPPY NEW YEAR!

GARY
